CHAPTER 1 Introduction & Overview

Introduction & Overview

EXECUTIVE MAYOR'S FOREWORD

The tough decisions we made and the unflinching commitment of all the stakeholders in Matlosana during the 2006 - 2007 financial year crystallised into a realisation that indeed we are advancing to meeting our goals and that another phase in our transformation journey lies ahead.

We undertook this journey as One Team with One Vision bounded by the resolve that what we design is what we shall implement. This resolve found expression in our political will to pilot the Integrated Development Plan (IDP) through all its stages by juxtaposing it to our ten year strategic plan commonly known as Matlosana Agenda 16, which has as its strategic priorities, which are:

- Excellence and Transformation;
- Democratic Governance:
- Quality Municipal and Social Service;
- Infrastructure and Utilities;
- · Accelerated Economic Growth and
- Financial Sustainability

The placing together of our IDP and Agenda 16 was encouraged by our political will, the passion of our technocrats to implement our vision; the confidence of our people and the strategic support of our partners.

Indeed the transformation and development journey was undertaken as One Team with One Vision in our quest to be a well run city through good governance, where economic growth and prosperity and quality municipal service delivery places us amongst the five (5) leading local municipalities in South Africa by 2016.

The elevated active enthusiasm and interest of our communities and partners in service delivery sounded a firm assurance and belief that indeed advances are registered in our struggle to fight poverty, underdevelopment, unemployment, HIV/AIDS and illiteracy in our quest to build a caring society based on freedom, equality and dignity.

Actual progress registered to meet practical gender and youth needs through special Mayoral Projects and the concomitant practical experience learnt in the process during the period under review provided a niche to integrate these needs in our IDP and Agenda 16.

Buildings on this foundation, the provision of basic services and infrastructure development within a physical and financial stable and sustainable environment have been expeditiously accomplished.

Some of the successes registered during the 2006/2007 financial year are the following:

- Participatory democracy through public participatory strategies was an integral part of our broader vision, activities and outreach program,
- Our financial status confirms the fact that we are sustainable and indeed a going concern
- We delivered considerably on our housing projects
- N12 economic development project is on course in line with our LED Strategy
- 28% of our budget was used for the remuneration of our staff;
- Just over 1% was used to pay the allowances of councillors;
- 23% of the budget was used for the purchase of electricity and water from the bulk suppliers;
- 9% was used to cover possible debts;
- 168 million was spent on capital infrastructure and the bulk of it was used for investment in infrastructure such as roads and storm water, internal reticulation as well as electricity;
- The expenditure of more than R50 million on internal reticulations and wastewater treatment plant has helped us to be on course to eradicate the buckets.
- R30 million was spent on road infrastructure, street lights and the upgrading of electrical networks;
- Other capital projects included the resealing of our roads; water supply and sanitation in rural areas; the solid waste handling and disposal; the water meter replacement in our city; the refurbishment of our court building and the extension of the market hall.

We paid particular attention on the needs and aspirations of our youth and women and in this regard the following were registered:

- We launched the Mayoral Environment Management Project which is currently employing 400 young people,
- We funded more than 32 youth businesses from the R 1milliom set aside in the Mayoral Youth Development Fund;
- We awarded more than 140 students with bursaries and all of them are studying at different institutions of learning across the country;

Finally, the IDP process will remain the springboard and benchmark for Matlosana to provide good governance through economic growth, investment attraction and speed up service delivery within the ambit and spirit of the contract that we have concluded with its diverse constituencies to build communities that work better, to ensure a better life for all and to meet our constitutional mandate as we soldier on to realize the 2014 national vision.

CLLR TS DODOVU EXECUTIVE MAYOR 29 NOVEMBER 2007

SPEAKER'S FOREWORD

In terms of chapter 4 of the Municipal Systems Act, (Act 32 0f 2000) municipalities are expected to engage their communities on matters affecting how its affairs are conducted. This process according to the Act requires municipalities to engage its communities by way of public participation. Public participation indeed forms the basis of our operation in serving our people, in order to achieve our constitutional obligation as a municipality. It is from the very same nature of a consultative government, that the Office of the Speaker at all times ensures that there is a clear communication strategy in place that link the municipality with our people. Over the last few years, this has been the challenge that the office has to deal with.

We have identified Compliance as a key focus area to improve on our public participation performance as we work towards achieving our objectives of Matlosana Agenda 16. We are all faced with compliance dilemmas and sometimes the decision we take can have unintended consequences. We therefore have established systems in place in order to improve compliance with the rules, procedures and good practices.

Evidently, the new approach to community development as encapsulated in the legislation governing the local sphere of government, has not only broadened the role of the Office of the Speaker in its internal functions, but it has also increased the scope of the work that the office needs to deal with at community level. Thus, from the office we strive at all to make our Councillors accountable to their constituencies by way of community gatherings (mass meetings). However, the Office of the Speaker endeavours to involve the community of this municipality to participate on issues that affect them directly. This process is done through the community meetings called by Councillors at ward level and by Mayoral Imbizo's which are called for the public to give comments and seek clarities on services they received from the municipality. It is for this reason that we challenged Councillors to initiate activities that addresses social-ills in our areas.

Therefore, it was strategic and purposeful to ensure that most functions performed by the office during 2006/2007 financial year were more of capacity building programme in order to capacitate both Councillors and ward committees. We were privileged, as the office to cover much ground in terms of Councillor Development Programme to capacitate Councillors on different aspects of Local Government to assist in performing their duties effectively. Some aspects of achievement cover the following; that is, all Councillors have undergone a workshop on Municipal Finance Management Act with the Provincial Treasury Department. Currently we have Councillors undergoing training on Certificate in Municipal Management with Southern Business School. In the light of limited

resources, we endeavour to capacitate Ward Committees as way of participatory democracy and good governance for them to be accountable and transparent to the community they lead. A two days Ward Committee Conference was held successfully on role clarification between the Community Development Workers, Ward Field Workers and Ward Committees.

I am satisfied that we have moved swiftly and decisively to deal with the challenge of capacitating the above mentioned areas in the Office of the Speaker. I am also convinced that given enough resources there can be improvement in developing the necessary human capital in order address our developmental goals in term of the Matlosana Agenda 16 objectives.

Through our outreach, programmes we have distribute food, clothes, blankets, etc. to the needy. The Speaker also as part of this programme celebrated her forty (40)-year birthday with the orphanage children around Matlosana in all of thirty (31) wards, where children we given gifts and food parcels.

This year's reports as you realize clearly indicates that indeed, we are on the right course and we need to maintain the momentum. In doing so, the office will continue to develop in a balanced manner, those activities that the office is constitutionally charged with in terms of the structures Act, and those activities that the office carries responsibility in terms of the systems Act.

To this end, it is our intention to maintain public participation as our core activity in our entire strategic programme. In general, the office has managed, in spite of all the odds, to maintain a functional and progressive ideal in achieving the City's vision and mission.

O.R. THABANCHU (MRS)
COUNCIL SPEAKER

MUNICIPAL MANAGER'S FOREWORD

Our long term objective as encapsulated in our Agenda 16 Vision Statement is to place our Municipality among the top 5 (five) Local Municipalities by 2016. We intend to achieve this through Excellence in conducting the affairs of the city, Growth by Attracting Investment and Stimulating Economic Growth and meeting the Service Delivery mandates and Improving the Quality of live of our people through efficient and quality service delivery.

Our focus is in line with the objectives of Local Government, as provided for under Section 152(1) of our Constitution, as well as the 7 (seven) National Key Performance Areas, which also forms the basis for Provincial Growth and Development Strategy, which is informed by the following KPA's:

- Excellence Transformation and Good Governance
- · Quality Municipal and Social Services
- Meeting Infrastructure and Utility needs
- · Accelerated Local Economic Growth
- Financial Sustainability

During the first term of the financial year under review, Council adopted the above strategic objectives with a view to conform to our Agenda 16 mission statement.

For completeness, practical and implementable purposes, the Agenda 16 Strategic Objectives were integrated with the IDP, which is Council's strategic document for service delivery in line with the needs and expectations of our community. The Agenda 16 driven IDP was then integrated with the budget to produce the Service Delivery and Budget Implementation Plan, which was used for performance monitoring.

From institutional transformation and good governance perspective, our city engaged in the alignment of our organizational structure, starting with top management, with the adopted strategies to ensure the realisation of our key objectives. We also dealt with the automation of the Performance Management System with the view to eliminating subjectivity and enhancing effective monitoring of our implementation processes.

When coming to Quality Municipal Services, we continued with the maintenance of acceptable levels of clean, safe and healthy environment. In recognition of our efforts, in this regard our city got a Professional Management Review Gold Award for cities/towns doing most in the Province for social upliftment as well a Silver Award for crime fighting.

With regard to infrastructure, it is indeed important to indicate that at the end of March 2007 our city had managed to spend hundred percent of Municipal Infrastructure Grant allocation for the financial year

under review. The challenge, which faced us at the end of Municipal Financial Year, however, was that of roll-overs for internal funded projects and which received pertinent attention in going forward.

In the area of Local Economic Development, our municipality received recognition award from Professional Management Review and Provincial Vuna Award where we obtained a Diamond Award for Cities/Towns doing most in the Province to attract local investments and Local Economic Development Key Performance Area Provincial Award respectively. The N12 development initiative on the other hand stands out as a flagship project that will not only boost the local economy but will also enhance integration from spatial development perspective.

Lastly, it is imperative to reflect on challenges facing us from financial management perspective notwithstanding the healthy position that our municipality enjoys as far as financial sustainability is concerned. The following deserves our attention:

- · Acceptable external audit reports
- Reduction of the R0.5 billion outstanding debt and
- Improvement of our revenue collection to be above the 90% mark.

The said

MM MOADIRA MUNICIPAL MANAGER

MUNICIPAL OVERVIEW

Geographic Profile

Klerksdorp is categorised as one of the main provincial centres, situated within the Southern District of the North West Province. According to its provincial status, it is ranked as a 'primary regional centre' within the 'transitional zone' from the metropolitan region, and it has a high level of facilitating economic growth based on its existing development potential and socioeconomic needs-status. The municipality was classified as a Catogery B Municipality by the Municipal Demarcation Board, in terms of section 4 of the Local Government Municipal Structures Act, 1998. The municipality includes Klerksdorp, Orkney, Stilfontein and Hartbeesfontein.

The area has strong physical and socio-economic linkages and economic interactions with Gauteng, a well as other main towns like Potchefstroom, Rustenburg, Welkom, Ventersdorp, Wolmaransstad and Ottosdal.

The area has strong capabilities and comparative advantages with regard to the manufacturing of agricultural products, manufacturing for the mining industry, beehive developments and retail in general. In all sectors, labour-intensive employment opportunities are promoted.

In addition to the above, Klerksdorp is located in the N12 Treasure Corridor (164km South West of Johannesburg on the N12 to Cape Town and covers an area of 3 562 km²). Hence, it forms one of the main provincial priorities for purposeful development in concentrated zones along the three corridors in the province.

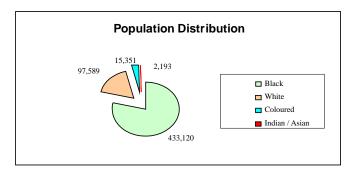

It is one of Council's strategic objectives to promote forthcoming initiatives from the N12 Treasure Corridor, to ensure local economic development and industrialization for Klerksdorp.

Demographic Profile

With a population of 548 253 the City of Matlosana is still the largest local municipality within the Southern District. According to National Census information the gender distribution is very equally at 49,6% male and 50,4% female.

The black population group represents 79% of the population while white population make up 17,8%; coloured population 2,8% and the Indian/Asian population make up 0.4%.

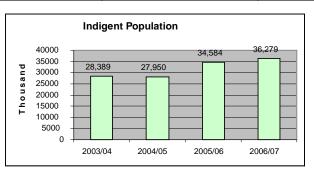

The estimated growth in population for the past year is 7 054 or 0,99%.

General Profile

Estimates from the Development Planning and Building Survey section indicate the following household totals:-

Financial Year	Formal / Informal Housing	Villages
2004/05	108 107	287
2005/06	116 092	292
2006/07	118 199	307

EXECUTIVE SUMMARY

To enhance the City of Matlosana's Integrated Development Plan (IDP) a strategic decision to apply a stronger mission, an aggressive vision was developed. In order to give effect to achieve the vision and mission 16 critical key priorities for the city, has been formulated, which will lead to the city to greater heights and improve service delivery to the community. The Matlosana Agenda 16 Strategic Plan was adopted by Council per Executive Mayor resolution, EM 210/2006 dated13 November 2006.

The mission and vision are as follows: -

OUR MISSION

EXCELLENCE IN CONDUCTING THE AFFAIRS OF THE CITY

GROWTH
ATTRACTING INVESTMENT
AND STIMULATING
ECONOMIC GROWTH

DELIVERY
BY MEETING THE SERVICE
DELIVERY MANDATES AND IMPROVING
THE QUALITY OF LIFE OF OUR PEOPLE

OUR VISION

MATLOSANA IS A WELL RUN CITY THROUGH GOOD GOVERNANCE

PLACE IT AMONGST THE 5 LEADING LOCAL MUNICIPALITIES BY 2016

AGENDA 16: STRATEGIC PLAN

Agenda 16 is built on 3 strategic pillars. Excellence, through attracting investment to stimulate Economic Growth and Excellence through Service Delivery to fulfil the needs of the community.

Agenda 16 recognizes that stimulating economic growth for prosperity and equality is of utmost importance and addresses this priority by brining city branding and marketing to the fore. Without an aggressive marketing campaign and an investment policy, we will fail to attract investment into Matlosana, and in turn will fail the commitment made to the community for the creation of jobs and alleviation of poverty.

The Agenda 16 strategic plan for Council for the next 10 years can be summarized as follows:-

STRATEGIC PRIORITIES	KEY PERFORMANCE AREAS (STRATEGIC PROGRAMMES)	OBJECTIVE	INDICATOR & TARGET
3.Qualtiy Municipal & Social Services	Safety & Security	To establish, in collaboration with all Authorities & Stakeholders a Safe & Secure Environment within Matlosana City	Safety & Security Strateg & Action Plan developed in collaboration with SAPS and Others by Jun 07 Disaster Management Plar by Jun 07
0	HIV, Aids, TB	Develop Action Plan to Support National Initiatives	Develop Plan by Jun 07 Provide Proof of Supporting National Programme
	Sustainable Environmental Management	Develop Action Plan to enhance the Appearance of The City and the Environment	Plan developed by Jun 07 Partake in Cleanest City Award Programme annuall and be amongst 5 Leaders Nationally

STRATEGIC PRIORITIES	KEY PERFORMANCE AREAS (STRATEGIC PROGRAMMES)	OBJECTIVE	INDICATOR & TARGET
4.Infrastructure & Utility Needs	Provision of Housing Existing Infrastructure Maintenance Existing Infrastructure Backlog & Upgrade New Bulk Services & Infrastructure Asset Management	To provide an Acceptable Level of Residential Service to All Groups To develop a System for Control & Management of City Assets	All Subsidized Housing Projects to be Completed as per the Applicable

STRATEGIC PRIORITIES	KEY PERFORMANCE AREAS (STRATEGIC PROGRAMMES)	OBJECTIVE	INDICATOR & TARGET
5.Accelerated Economic Growth (Poverty Relief, Job Creation, LED, RED)	Sustainable New Projects Rural Economic Development (Energy)	To create An Environment where Local & Rural Economic Growth is Enabled and Accelerated	500 Jobs are Facilitated Annually through Municipal Programmes & Projects (30% Youth) Unemployment is reduced by 5% annually against an established Baseline The Number of Families with Income of Less Than R1 100 is reduced by 5% per annum
	SMME Development City Branding / Marketing / Tourism	A Programme is developed for Creating Sustainable SMME's A Brand for Mattosana, with potential to be Highly	SMME Strategy & Action Plan developed by April 07 Sustainable SMME's show Growth of 10% + per annum Brand developed by April 07

STRATEGIC PRIORITIES	KEY PERFORMANCE AREAS (STRATEGIC PROGRAMMES)	OBJECTIVE	INDICATOR & TARGET
6.Financial Sustainability	Cash flow Management & Revenue Enhancement	To Enhance Financial Controls in line with National Indicators for Debt Coverage, Service Debtors and Available Cash Reserves	Service Debtor Payment Rate 90% + Dec 08 Debtor Days 60+ improve by 30% by Dec 08 Debtor Days 90+ improve by 20% by Dec 08 Debtor Days 120+ improve by 10% by Dec 08 Cash Management and Debt Coverage as per National Indicators
	Public Private Partnership	To Re-examine the Proposal for Creating Public Private Partnerships in the area of Non-Core Functions	Re-examined Proposal Tabled by Jun 07

CHAPTER 2
Performance Highlights

City of Matlosana
ANNUAL REPORT 2006 - 2007

Performance Highlights

Performance evaluation for the organization and the various departments takes place once a year and conducted, as far as possible in line with council's performance evaluation system.

FREE BASIC SERVICES

Given the level of poverty in Matlosana municipal area and in order to comply with national directives and policy, the municipality introduced a policy of free basic services to residents.

Water

All households in Matlosana area currently qualify for the first 6 kl of water a month free of charge.

Council also adopted the minimum level of a water service to be a water connection in each erven, instead of a 200m communal standpipe.

Sanitation

The Council adopted the minimum level of sanitation service to be a sewer connection to each erven from water borne sewer reticulation, serving a flushing toilet system on the relevant erven.

Electricity

Indigent households in Matlosana area received 50 KWh of free electricity per 30 days period.

KEY SERVICES

The following statistics show the key services provided during the period under review:-

DETAIL	2004/05	2005/06	2006/07	INCREASE
Nr. of households electrified during year	300	1 200	1 801	601
Nr. of households provided with water	3 424	4 467	5 015	548
Nr. of new houses build	1 825	1 690	4 996	3 306
Collection levels for revenue due		84,94%	86,84%	1,9%

The total electricity and water consumption for the Matlosana area for the past 3 financial years are as follows:-

FINANCIAL YEAR	ELECTRICITY PURCHASED FROM ESKOM	WATER PURCHASED FROM MIDVAAL WATER COMPANY	ELECTRICITY DISTRIBUTION LOSSES	WATER DISTRIBUTION LOSSES
2004/05	548 290 858 Kwh	22 129 449 KI	17,36%	28,37%
2005/06	553 430 700 Kwh	22 593 861 KI	15,90%	28,28%
2006/07	546 499 242 Kwh	24 793 434 KI	10,80%	23,82%

BACKLOGS ON SERVICE DELIVERY

The biggest challenge for Council is not to create unrealistic expectations, but to develop a medium to long term strategy to address backlogs and to ensure that the community is involved, understand and adopt the strategies.

The following tables indicate the backlogs Council is facing regarding water, sanitation and housing:-

_	1						1				
WATER		2004/2005	5		2005/2006		2	2005/2006

CHALLENGES ON BACKLOGS

Sanitation

Resources to eradicate sanitation backlogs in the short term are not sufficient, but major progress has been made in eliminating the bucket system that should be completely phased out by the end of 2007.

A program to eliminate the night soil bucket system is as follows:-

BACKLOGS	2005/06	2006/07	2007/08	2008/09
Statuary backlogs	27 827	13 568	13 568	0
Minus erven being developed	9 090	0	0	0
Current number of night soil buckets	18 737	13 568	13 568	0
Eradicate during financial year	5 169	500	13 568	0
Number of buckets at end of financial	13 568	13 568	0	0
year	13 300	13 300		

All new housing projects will be equipped with a proper sewerage from the outset.

Electricity

The Eskom has a backlog of 17 621 households that do not have access to Free Basic Electricity as per our indigent data register.

50 Kwh of electricity per household per month is required to meet the minimum service standard.

Street lighting remains a challenge in some areas. To address this challenge, applications are submitted with business plans to the MIG for funding in addition to the funds provided through the IDP in the Council's budget.

Municipal Infrastructure

Aging municipal infrastructure is another challenge Council needs to address. More budgetary attention has be given to the aging municipal infrastructure for maintenance of the present assets, such as roads, electricity network,

City of Matlosana
ANNUAL REPORT 2006 -

water reticulation and sanitation systems. Some of the projects identified for the 2007/2008 financial year are listed as follows:-

- · Replacement of Water Meters
- IDP Reline Van Riebeeck Road Water Main
- Upgrading of Orkney Water Treatment Works
- Reline Orkney: Construction of Outfall Sewer
- Resealing of Roads: City of Matlosana
- Street names
- Provision of guidance signs within KOSH area
- Provision of Taxi lay byes within KOSH area
- Upgrading of Highmast Lights (All areas)
- Upgrading 11Kw Distribution Network Northern Suburbs
- Upgrading Substation Hartbeesfontein
- Replace Kiosk with Mini Substation

Payment Rates

The payment of rates and services of 86.2% have been currently achieved, but still does remain a challenge when compared to the number of households.

This will also be a challenge to all Councillors to improve the situation.

Roads

The former Townships have mainly gravel and graded roads. The tarring taxi routes are in process and are money provided yearly on the budget for this purpose. MIG funding was approved for the tarring/paving of taxi routes in the 2008/09 financial year.

Housing

Due to the rapid urbanization and the economic factors prevailing, it is difficult to keep up with demanded provision of housing for all deserving households. While a huge housing stock has been recently delivered by this municipality through normal housing subsidies, other options, such as public private partnerships to produce social housing are being examined in addition with what is provided for in the IDP.

Job Creation

At present some jobs are being created through projects financed by MIG funds and these will continue for as long as funding is available for such projects.

Along with this support is given to SMME's for establishing own steady businesses that in turn create jobs. Business plans are also been submitted to possible funders for the establishment of sustainable projects that can provide long term jobs.

BUILDING PLANS

The following table indicate the number of applications for building plans received for 2005/2006 and 2006/07, as well as the outstanding building plan applications as on 30 June 2007:-

	2005/	2006		2006/2007

CHAPTER 3

Human Resources And Other Organizational Management

City of Matlosana

Human Resources And Other Organizational Management

ORGANIZATIONAL STRUCTURE

With the adoption of a new vision and strategy for Matlosana (Agenda 16) a new top level organizational structure was approved. The structure makes provision for five directorates and a support services unit in the Office of the Municipal Manager.

The directorates and support services unit is directly accountable to the Municipal Manager, which narrows the span of responsibility and ensure better management and control. It also addresses current legislation and Council's aim in alleviating poverty, creating of jobs and to enhance economic growth.

The top level organizational structure is as follows:-

- Municipal Support Services Unit
- Directorate Infrastructure & Utilities
- Directorate Finance
- Directorate Corporate Governance
- Directorate Municipal & Social Services
- · Directorate Economic Growth

At closing of the financial year, a total of 2 732 posts exist on the organogram, with a total of 1 886 posts filled and 846 posts vacant.

The approved top-level organizational structure appears on page 26.

Job Evaluation

At the end of June 2007, approximately 80% of the job descriptions for all approved posts on Council's organogram were completed and submitted to the Task Job Evaluation Committee for evaluation.

Performance Management

The objective of Performance Management is to improve the performance of the municipality as guided by the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) (MSA), Local Government: Municipal Planning and Performance Management Regulations, 2001 and Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003) (MFMA).

In terms of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003) the City of Matlosana is classified as high capacity municipality and is required to compile a service delivery and budget implementation plan (SDBIP) for each financial year.

The SDBIP comprise the following key components:-

- Monthly projections by source;
- · Monthly projections of capital and operating expenditure and revenue by vote;
- Quarterly projections of service delivery targets and performance indicators by vote:
- Ward information for expenditure and service delivery; and
- A detailed capital works plan.

The 2006/2007, SDBIP provided an implementation tool for Council to strengthen local accountability and governance and to improve capital spending and service delivery.

The SDBIP outlined the key performance objectives and indicators as well as quarterly projections of service delivery targets and actual targets achieved.

The SDBIP ensured proper monitoring of key strategic priorities, but also served as the annual performance contracts for section 57 employees.

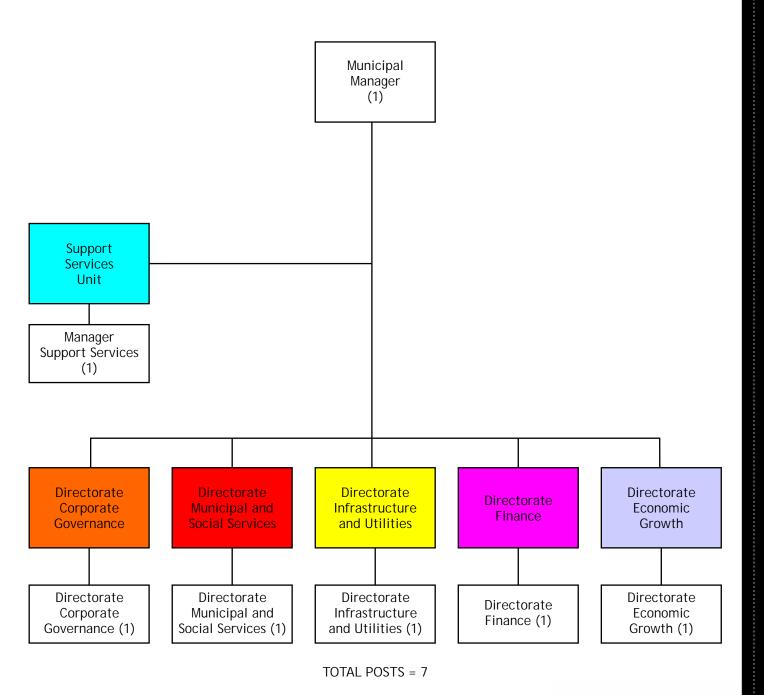

It empowered Councillors, specifically facilitating engagement at ward level, to undertake the appropriate oversight and the monitoring of programmes.

The Executive Mayor approved the 2007/2008 SDBIP and performance agreements on 28 June 2007. These documents will be used for monitoring performance of directors and departments in the new financial year.

The Performance Management System of Council becomes more efficient and effective every year. The Performance Management System for the 2007/2008 financial year will be entering a new phase, as a management information system and action tracker was purchased. The Service Delivery and Budget Implementation Plan will be computerized, which will ensure regular monitoring and reviewing of strategic programmes and IDP priotiries of Council. Roll-out of the system and training will commence early in the new financial year.

CHAPTER 4

Audited Financial Statements And Related Financial Information

City of Matlosana
ANNUAL REPORT 2006 - 2007

REPORT OF THE AUDITOR-GENERAL TO THE COUNCIL AND THE NORTH WEST PROVINCIAL LEGISLATURE ON THE FINANCIAL STATEMENTS AND PERFORMANCE INFORMATION OF THE CITY OF MATLOSANA FOR THE YEAR ENDED 30 JUNE 2007

REPORT ON THE FINANCIAL STATEMENTS

Introduction

1. I was engaged to audit the accompanying financial statements of the City of Matlosana which comprise the statement of financial position as at 30 June 2007, statement of financial performance, statement of changes in net assets and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes, and the accounting officer's report, as set out on pages 40 to 97.

Responsibility of the accounting officer for the financial statements

- 2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting determined by the National Treasury, as set out in accounting policy note 1 and in the manner required by the Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA). This responsibility includes:
 - designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error
 - selecting and applying appropriate accounting policies
 - making accounting estimates that are reasonable in the circumstances.

Responsibility of the Auditor-General

3. As required by section 188 of the Constitution of the Republic of South Africa, 1996 read with section 4 of the Public Audit Act, 2004 (Act No. 25 of 2004) (PAA), my responsibility is to express an opinion on these financial statements based on my audit in accordance with the International Standards on Auditing. Because of the matters discussed in the basis for disclaimer of opinion paragraphs, however, I was not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis of accounting

4. The municipality's policy is to prepare financial statements on the basis of accounting determined by the National Treasury as set out in accounting policy note 1.

Basis for disclaimer of opinion

5. Property, plant and equipment: Infrastructure assets

I was unable to obtain sufficient, appropriate audit evidence for infrastructure assets with a carrying value of R423 907 218 included in note 9 to the financial statements, due to inadequate information in the asset register regarding the descriptions, location and cost of infrastructure assets as required by GAMAP 17(Property, plant and equipment). The municipality's records did not permit the application of alternative audit procedures regarding these assets. Consequently I did not obtain sufficient, appropriate audit evidence I considered necessary to establish the existence, completeness, valuation and allocation and rights and obligations of infrastructure assets.

6. Long and short-term receivables - Housing

I was unable to obtain accounting records and supporting documentation for housing debtors included in long-term receivables and other debtors, due to a limitation of scope imposed by the municipality. The entities records did not permit the application of alternative audit procedures. Consequently I did not obtain sufficient, appropriate audit evidence to determine the existence, completeness, valuation and allocation and rights and obligations of long-term receivables of R12 252 520 and current housing debtors of R17 103 215 disclosed in notes 10 and 13 to the financial statements respectively. This matter was also reported in the prior year audit report.

7. Other debtors

I was unable to obtain sufficient, appropriate audit evidence for debtors of R43 069 600 included in other debtors of R69 887 697 disclosed in note 13 to the financial statements, due to the failure of management to provide supporting documentation/information. Consequently I could not confirm the completeness, existence and accuracy of the amount of debtors reflected in note 13. Furthermore, alternative procedures performed indicated that these debtors were irrecoverable. Consequently, other debtors and equity were overstated by approximately R43 069 600.

8. Long-term liabilities

Following the altered functions and powers of the municipality determined by the Minister for Provincial and Local Government as per Government Notice 821 of 2003, issued in Government Gazette No. 25076 of 13 June 2003, certain assets and liabilities on bulk water and sewerage services were to be transferred from the Southern District Municipality to the City of Matlosana. To date of this report no long-term liabilities or infrastructure assets had been transferred, resulting in long-term liabilities being understated by R34 371 717 and infrastructure assets being understated by at least the same amount.

9. Government Grant Reserve and Donations and Public Contribution Reserve

The combined carrying value of property, plant and equipment of R351 003 391 financed by the Government Grant Reserve and the Donations and Public Contribution Reserve as per the accounting records, differed with the combined balance of R338 978 700 of these reserves as disclosed in the Statement of Financial Position. I was unable to obtain explanations for the difference of R12 024 691. The municipality's accounting records did not permit the performance of alternative audit procedures in this regard. Consequently I was unable to determine the completeness, valuation and allocation of these reserves.

10. Provision for bad debts

The municipality's approved policy for the calculation of the provision for bad debts was not reasonable due to the fact that it was based on the prior year age analysis. Furthermore, the calculation for the provision for bad debts of R430 188 290 disclosed in note 12 to the financial statements was also not done in terms of the approved policy. A re-calculation performed during the audit, based on the year under review's age analysis indicated that the provision was underprovided by approximately R9,5 million. Consequently I was unable to determine the accuracy, completeness and presentation and disclosure of the provision for bad debts.

Disclaimer of opinion

11. Because of the significance of the matters described in the basis for disclaimer of opinion paragraphs, I have been unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements of the City of Matlosana. Accordingly, I do not express an opinion on the financial statements.

Emphasis of matter

I draw attention to the following matters:

12. Basis of accounting (departures and deviations)

As set out in accounting policy note 1 the National Treasury approved a deviation from the basis of accounting applicable to the municipality in terms of Government Notice 552 of 2007 issued in Government Gazette 30013 of 29 June 2007.

13. Late finalisation of the audit report

In terms of section 126(3)(b) of the MFMA I am required to submit my report to the Municipal Manager within three months of the receipt of the financial statements. In the interest of improving accountability and due to the process implemented by me to ensure consistency in the manner in which material audit findings are reported I have delayed the finalisation of my report to 30 April 2008.

OTHER MATTERS

I draw attention to the following matters that are ancillary to my responsibilities in the audit of the financial statements:

- 14. Non-compliance with laws and regulations:
 - a) Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA)
 - Contrary to section 62(c)(i), the municipality did not have a risk management policy.
 - b) Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000) (MSA)
 - Contrary to section 104, council did not have a fraud prevention plan.
 - Contrary to paragraph 12A of schedule 1, five councilors had consumer accounts outstanding for longer than 90 days as at 30 June 2007 as disclosed in note 33.6 to the financial statements.
 - Contrary to paragraph 10 of schedule 2, the consumer accounts of staff members outstanding for longer than 90 days as at 30 June 2007 amounted to R17 347. Mayoral Committee resolution 460/2002 dated 20 May 2002 to clear the consumer accounts of council and staff members has thus also not been adhered to.
 - c) Value Added Tax Act, 1991 (Act no. 89 of 1991)
 - In terms of an amendment of section 20(4) effective from 1 March 2005, the VAT registration numbers of both user and supplier must be disclosed on invoices exceeding R3 000. Council's invoices do not meet this requirement, nor are there measures to ensure that invoices of suppliers to council, comply in this regard.

15. Matters of governance

- a) The internal audit function did not function effectively during the year, due to weaknesses identified in their audit approach and methodology, audit reporting and quality assurance.
- b) Due to several shortcomings regarding the requirements of section 166 of the MFMA, the audit committee did not function effectively during the year.
- 16. Material corrections made to the financial statements submitted for audit.
 - a) Debit balances of R12 513 469 and credit balances of R16 646 668 incorrectly included as correction of errors in the Statement of Changes in Net Assets, was rectified.
 - b) A difference of R10 595 750 in the amounts disclosed for the purchase of property, plant and equipment between the cash flow statement and appendix B, was corrected in the cash flow statement.

17. Value for money

A documented human resource plan was not in place during the year under review. At year-end a vacancy rate of 31% existed within the municipality, resulting in undue stress being placed on current employees and negatively affecting service delivery and the finance functions of the municipality.

18. Internal control

Section 62(1)(c)(i) of the MFMA states that the accounting officer must ensure that the municipality has and maintains effective, efficient and transparent systems of financial and risk management and internal control. The table below depicts the root causes of the matters indicated, as they relate to the five components of internal control. In some instances deficiencies exist in more than one internal control component.

Reporting item	Control environment	Assessment of risks	Control activities	Information and communication	Monitoring

OTHER REPORTING RESPONSIBILITIES

Reporting on performance information

19. I have audited the performance information as set out on pages 17 to 31 and 107 to 224.

Responsibility of the accounting officer for the performance information

20. In terms of section 121(3)(c) of the MFMA, the annual report of a municipality must include the annual performance report of the municipality prepared by the municipality in terms of section 46 of the MSA.

Responsibility of the Auditor-General

- 21. I conducted my engagement in accordance with section 13 of the PAA read with General Notice 646 of 2007, issued in Government Gazette No. 29919 of 25 May 2007.
- 22. In terms of the foregoing my engagement included performing procedures of an audit nature to obtain sufficient appropriate evidence about the performance information and related systems, processes and procedures. The procedures selected depend on the auditor's judgement.
- 23. I believe that the evidence I have obtained is sufficient and appropriate to provide a basis for the audit findings reported below.

Audit findings (performance information)

24. Non-compliance with regulatory requirements

- a) Contrary to sections 126(1) and 126(3), the performance report was not presented for audit within two months after the financial year-end.
- b) Contrary to section 26(c) of the MSA, the IDP did not reflect council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs.
- c) In terms of section 41(2) of the MSA, the performance management system must be devised in such a way that it may serve as an early warning indicator of under-performance. As confirmed by the internal audit performance report, the performance management policy framework of council did not meet this requirement.
- d) The key performance indicators set by the council did not include the general key performance indicators as prescribed in terms of section 43(1) of the MSA.
- e) Contrary to section 41(1) of the MSA, quarterly performance reports was not properly reviewed by the required officials.
- f) Contrary to section 44 of the MSA, the performance management policy framework of council did not provide for targets set by the municipality to be made known internally and to the general public.
- g) In terms of Regulation 6 of the Municipal Planning and Performance Management Regulations, 2001 (MPPMR), the allocation of resources in the municipality's annual budget (financial plan include budget projection for at least the next three years) should be based on the development priorities and objectives as well as the performance targets set by the municipality. The performance mangement policy framework of council did not meet this requirement.
- h) Contrary to Regulation 9(1)(a) of the MPPMR, key performance indicators were not set in respect of each of the development priorities and objectives referred to in section 26(c) of the MSA.
- i) Contrary to Regulation 14(2) of the MPPMR, the council did not budget or appoint a performance audit committee, neither was another audit committee utilised as the performance audit committee during the financial year 2006/07.

25. Measurable objectives not consistent

I draw attention to the fact that the measurable objectives reported in the performance report of the City of Matlosana are materially inconsistent when compared with the predetermined objectives as per the IDP. The following table reflects these differences:

IDP objectives	Budget objectives	Objectives per performance report
Local economic development	None	Accelerated economic growth, Poverty relief, Job creation, LED and RED
Spatial development	None	Democratic governance
Infrastructure	None	Infrastructure & utility needs
Environment	None	Excellence & Transformation, Leadership, Management and Governance
Social facilities	None	Quality municipal & social services
Manpower/financial sustainability	None	Financial sustainability

APPRECIATION

26. The assistance rendered by the staff of the City of Matlosana during the audit is sincerely appreciated.

Audibor General
Pretoria,
23/05/2008

5/2008

City of Matlosana
ANNUAL REPORT 2006 -

DECLARATION OF ACCOUNTING OFFICER

for the year ended 30 June 2007

I am responsible for the preparation of these annual financial statements, which are set out on pages 61 to 104, in terms of Section 126(1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of Councillors, as disclosed in note 21 of these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

FOREWORD

At the end of a financial cycle, it is always exciting to evaluate and analyze not only the financial results, but also how finances contribute to the improvement of the living standards of our community. The financial planning and accountability reform initiatives of Government were a priority in the past year and huge progress was made towards the full implementation of the reform. It does me proud to report on the successes for the year under review.

The budget cycle started long before the start of the financial year with financial planning and information sessions in an effort to make the process much more transparent. The budget was discussed widely with the community, community structures, non-governmental organs and political structures.

This was used as the basis to set the strategic and political direction through an Integrated Development Plan and budget.

Regular reporting kept the Executive Mayor and Council abreast of the financial position of Council. The Executive Mayor submitted an adjustment budget during January 2007. The purpose of the adjustment budget was to speed-up the delivery process.

The commitment of the staff again ensured that the Annual Financial Statements would be completed within the prescribed period. The finalization of the 2006/2007 Annual Financial Statements and year-end processes went exceptionally well. If compared with previous financial years, it proves that the necessary capacity is developing well in Council.

It must further be mentioned that the Annual Financial Statements were prepared in accordance with new South Africa Statements of Generally Recognized Accounting Practice (GRAP) principles, which does our City proud and should contribute towards the eventual goal to be one of the best performing Municipalities in the country.

The financial results for the year are positive and resulted in an operating surplus of R40.1 million. The financial report of the Chief Financial Officer elaborates on the reasons for the surplus. Capital investment in the community for the year amounted to R168 million. This was not all done with own or borrowed sources but a major portion came from Government in the form of municipal infrastructure grants

The possible utilization of the surplus of 2006/07 financial-year will be discussed during an adjustment budget.

Unfortunately, the payment situation is still not under control and although improvements have been made, the outstanding debtors remain a great concern. The payment situation improved to an average of 85% for this financial period. Although the non-payment is managed, it is not acceptable that money that is supposed to be used for development is absorbed as provision for bad debt.

We are also grateful for the phenomenal growth of both residential and business development in our City. More incentives are needed to make the City more attractive to gain the confidence of investors in the commercial sector and to promote job creation.

We are ready to face the next step in the future of the City and to make it an even better place to live in.

A special word of thanks needs to be conveyed to the Chief Financial Officer and his personnel for ensuring that the financial administration was done in a manner that enabled them to produce this set of Annual Financial Statements timeously and in terms of the required standards.

My appreciation to the Executive Mayor, Mayoral Committee, Councillors, Municipal Manager, Departmental Heads and all other personnel for their support, cooperation and hard work that made the past year so successful.

Coundilor/J Douw

City of Matlosana
ANNUAL REPORT 2006 - 2007

REPORT OF THE CHIEF FINANCIAL OFFICER

FINANCIAL REPORT FOR THE YEAR ENDED 30 JUNE 2007

By: Chief Financial Officer (I.J. Haarhoff)

I have pleasure in presenting my annual financial report together with the Financial Statements, which are still subject to audit, for the year ended 30 June 2007.

1. INTRODUCTION

One of the six strategic pillars that form strategic focus of Matlosana Municipality is financial stability. The City again addressed key issues designed to make it financially viable and to develop it as a preferred investment destination. In his budget speech for the 2006/2007 financial year, the Executive Mayor emphasized the fact that the City must be taken to the majestic heights by creating a financially stable municipally that will be able to carry out its Constitutional obligations to the community that it serves. It includes

promoting community participation that will install civic patriotism and pride as well as a vibrant awareness in our projected R1 billion budget and how it is linked to the Integrated Development Plan (IDP). The plans that were put in place to improve financial management include, budget reform, the implementation of improved asset registers (in progress), bringing accounting systems in line with General Accepted Accounting Practices (GAMAP), certain Standards of General Recognized Accounting Practices (GRAP) as well as moving towards compliance with International reporting and accounting standards. The performance driven management will further enhance service delivery and is aimed to hold the different divisions of Council accountable for their actions. This is not only aimed at council employees but includes councillors. The results are reported to the public every year and proper oversight exists that will monitor progress and performance. All these measures are aimed at improving effectiveness, efficiency and promote the economical usage of limited resources.

Financial stability is further achieved by the following basic principles that are applied in Council on a regular basis.

- Focus on long- and short term financial objectives.
- Maintain sufficient financial liquidity through regular reviews and adjustments to meet normal operating and contingent obligations.
- Apply debt collection policies, which maximize collection while providing relief to indigent consumers.
- Apply the concept of free basic services to the poor.
- Maintaining assets in a responsible manner.
- Provide a framework for prudent use of debt financing.
- Direct the city's financial resources towards meeting the goals of the city it terms of the Integrated Development Plan (IDP).
- Develop and implement internal controls.

The spending on capital infrastructure is covered in the report and it is obvious that the capital program has been excelled to keep pace with the marching order targets set for 2008. Grant funding and equitable share from National Government has made a huge difference and it has provided an opportunity for local government to start making a noticeable change to service delivery.

A credit rating of the financial position of Council was done in 2005/6 based on the financial statements of 2004/05. Although no rating was done in 2006/7, it is my opinion that the financial rating should be better than the BBB (sufficient ability to repay long-term debt) and the A2 rating for short-term.

Local Government is going through a phase of tremendous changes in legislation and accounting standards. The Municipal Finance Management Act (MFMA) is the main piece of legislation that controls financial management and accountability. Huge progress has been made in Matlosana with the implementation of the Act. Although it is a requirement that the MFMA must be complied with in full, it is also obvious that an Act is a living document and changes in the implementation thereof will be made for practical purposes over time.

The original budget for the year was approved during May 2006. During the reporting period, an adjustment budget was presented and approved by Council. The 2006/07 budget provided for additional resources allocated towards the improvement of services delivery. Information on the original budget as well as the adjusted budget is included in this report. The adjusted budget also includes transfer of funds to cover over- and under-expenditures.

2. BASIS OF PRESENTATION

The Annual Financial Statements have been prepared in accordance with the basis of presentation as indicated in the accounting policies, which is attached to the Annual Financial Statements.

The Annual Financial Statements is based on the following principals:

- The new budget formats prescribed by National Treasury
- Accordance with South Africa Statements of Generally Recognized Accounting Practice.
- Certain International Accounting Standards.
- The Municipal Finance Management Act.
- The Division of Revenue Act.
- Other legislation applicable to municipal finance management.

Certain of the new accounting standards have been exempted by the Minister of Finance. These exemptions have been indicated in the accounting policy. Some of the exemptions have been implemented because the process of change to the new standards was already done in the previous financial year. The exemptions that have not been implemented at this stage are the following.

Standard	Description of standard	Extend to which the information in the financial statement has to be changed
GAMAP 12	Inventories (Accept Exemption in so far as the water stock is concern)	This will only effect the statement of financial performance as far as the cost of goods sold is concern. The statement of financial position will be effected by the stock on hand. The problem is the calculation of the amount of water that will be in the distribution network at the 30 June of each year.
GAMAP 17	Property, plant and equipment (Note exemption of certain aspects of the standard in Notice 522) (Accept Exemption)	It is envisaged that the value of PPE will escalate once impairment and useful life of assets are done in terms of the statement. The cost of administration to implement the exemption is envisaged to be quite high in relation to the benefit to local government.
IAS 39 (AC 133)	Financial instruments: Recognition and measurement (Note exemption of certain aspects of standa rd in Notice 522) (Accept Exemption)	The implication of this standard on the changes to financial systems will be tremendous and might even increase the administration cost. As far as the statements are concern, very little benefit will derive from the implementation of it.
IAS 20 (AC 134)	Accounting for government grants and disclosure of government assistance (to the extent that it does not contradict GAMAP 9)	Limited changes to the accounting system are expected. As far as the statements are, concern m ore detail reporting will result from the implementation of this standard.

IAS 40 (AC 135)	Investment property (Note exemption of certain aspects of standard in Notice 522) (Accept exemption on the portion of "fair value")	The determination of "fair valu e" problematic. It is foreseen that the values will change very regularl which can complicate report on a consistent basis.			
IFRS 7	Financial Instruments (Accept	Limited impact on the financial			
(AC 144)	Exemption)	information is foreseen.			
IAS 14 (AC 115)	Segment Reporting (Accept Exemption)	This standpoint is the biggest challenge and it is not foreseen that local government will be in a position to implement it. The extent of reporting on this matter will never be cost effective and will complica te financial statements for the user.			
IFRS 8 (AC 145)	Operating Segments (Accept Exemption)	The same as the previous one.			

3. OPERATING RESULTS

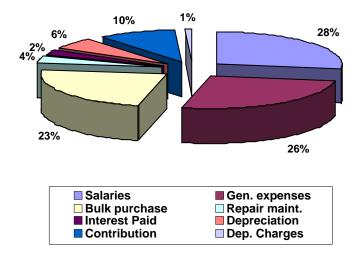

The overall operating performance and operating results for the financial year are favorable considering that the operational surplus before transfers for the year was R31 million against the original budgeted surplus of R40 012. The reason for the huge difference will be explained later in the report. The following table provides a summary of the Original Budget, the Adjustment Budget that was approved in January 2007 and then the actual results for the year under review in comparison with the results of the previous year.

		Adjusted			
Description	Budget	Budget	Actual	Variance Actual	Actual
	2007	2007	2007	Adjusted Budget	2006
	R	R	R	%	R
REVENUE					
Operating revenue for the year	710 383 620	747 321 014	778 073 535	4.12%	731 572 217
Offsetting from Reserves	19 619 807	22 386 270	148 588 990		29 800 726
	730 003 427	769 707 284	926 662 525		761 372 943
EXPENDITURE					
Operating expenditure for the year.	729 322 915	769 224 034	746 864 573	(2.9%)	639 921 995
Transfers to Reserves	640 500	483 250	127 120 508	(2.370)	98 717 778
	40.040		F2 677 444		20 722 470
Closing surplus	40 012 730 003 427	7 69 707 284	52 677 444 926 662 525		22 733 170 761 372 943

Revenue (before transfers) grew by a staggering 6,4% compared to the previous year. A breakdown of the revenue will follow in the report. Expenditure on the other hand grew by 16,7%. The amount that was budgeted was not spent.

The graph shows the breakdown per main expenditure group before inter departmental re-charges.

The following table reflects a break down of the expenditure per type for 2006/07 against the budget for that year as well as the actual figures of the previous year for comparison purposes:

<u>Expenditure</u>	Budget 2007	Adjusted Budget 2007	Actual 2007	Difference Actual / Adjusted Budget 2007	Actual 2006
	R	R	R	R	R
Remuneration	235 473 944	227 411 524	211 005 556	16 405 968	191 641 543
General expenses	225 362 250	246 372 403	222 349 616	24 022 787	186 465 878
Bulk Purchases	171 826 840	181 016 490	180 876 485	140 005	158 801 679
Repairs and Maintenance	32 261 511	36 684 752	29 763 268	6 921 484	20 827 984
Inter-departmental charges	6 976 170	6 336 120	6 296 042	40 078	7 389 301
Depreciation	40 109 615	42 466 000	44 573 257	(2 107 257)	37 709 856
Contributions	72 951 620	72 964 620	77 368 848	(4 404 228)	105 698 177
Transfers to other reserves	20 250	15 873 750	127 120 508	(111 246 758)	86 990 000
Less: Amounts Charges out	-22 275 820	-25 250 870	-25 368 499	117 629	-24 685 919
Net expenditure	762 706 380	803 874 789	873 985 081	-70 110 292	770 838 500

Capital acquisitions that were funded from government grants and subsidies are included in the above table under the heading" transfers to other reserves".

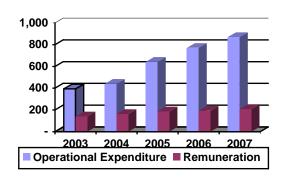

3.1 Remuneration vs. Operating Expenditure

Staff expenditure reflected as a percentage of the total expenditure of R747 million, shows an increase as a portion of the expenditure from 25% in 2005/6 to 28,25% in 2006/7. The percentage does not take re-charges and the effect of grants and fiscal sharing into account.

The under-spending of R16,4 million on remuneration compared to the budget is as a result of savings realized from vacancies that were not filled during the year as well as the finalization of the new organizational structure. The saving was made up by R11,8m on vacancies and related cost, R500 000 on overtime expense, R3,3 million on the redemption of leave and R800 000 on other related employee expense.

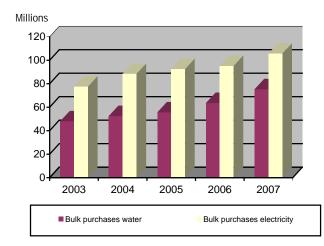

3.2 General Expenditure

The main expenditure types that influenced the difference between budgeted and actual results are indicated in note 25 of the financial statements.

The saving on the budgeted amount of R24 million is mainly contributed to the valuation that was not completed for which R10 million was provided. R2 million was saved on vehicle hiring cost as a result of a operational hire plan for vehicles that only came into affect towards the end of the year. Because of vacancies on senior level as saving of R1,3 million was made on insurance and travelling allowance. Provision was also made for R2million for the disaster of which only R500 000 was spend at the end of June 2007. The remaining portion of the amount, together with the insurance payment will have to be transferred to the next year. The free basic services expense for the year under review stands at R46,8 million which was a saving of R1,2 million for the year. The remaining portion of the total saving was made up by smaller amounts.

3.3 General Expenditure: Bulk Purchases

The following graph gives a graphical illustration of the relation between total amount spent on the bulk purchase of water and electricity:

It is clear that there is a gradual increase in consumption over the last five year in the usage of electricity and water.

3.4 Repair And Maintenance

Under spending on maintenance amounts to R6,9 million for the year. Provision was made for R36,7 million of which only R29,8 million was spent. The delay in the start of the rental scheme contributed to the biggest portion of the saving of R3,4 million on the vehicle maintenance. The second biggest portion of the saving was computers and software, buildings, civil and electricity network.

3.5 Depreciation

The over-spending of R2million on this portion of the budget is mainly contributed by an increase in government grants for capital infrastructure. It would seem that this tendency would continue because of backlogs in infrastructure and the effort that government puts into the eradication of these backlogs.

3.6 Inter-departmental Charges

The deviation in inter departmental charges can be connected to the fact that expenditure were lower than the tendency of the previous year.

3.7 Contributions

Contributions made towards the provision for the accumulated leave liability were R4,4 million more that the budgeted amount. The provision is made in terms of the accounting policy of Council.

3.8 Less: Charge Out

The contracting out of capital projects to private institutions affected the amounts charged out.

4. OPERATING INCOME

Income per income category compared with the budgets and the actual for the previous financial period is as follows.

<u>Income</u>	Budget 2007	Adjusted Budget 2007	Actual 2007	Variance Actual / Adjusted Budget 2007	Actual 2006
	R'	R'	R'	R'	R'
User Levied Charges	473 218 300	475 726 020	474 464 880	(1 261 140)	439 386 267
Tariff charges levied	1 898 885	1 930 935	3 590 943	1 660 008	2 348 724
Tariff charges other	24 465 310	27 698 680	31 816 787	4 118 107	24 545 225
Grants and subsidies	125 093 185	130 389 450	129 551 883	(837 567)	104 682 828
Fines	8 388 310	4 737 330	3 305 839	(1 431 491)	4 298 683
Interests	38 258 755	40 415 365	50 116 891	9 701 526	40 651 424
Rentals	6 741 425	6 900 620	7 767 236	866 616	6 235 783
Licenses	3 161 510	3 187 510	3 482 119	294 609	3 265 022
Profit sale of assets	200 000	200 000	6 514 630	6 314 630	621 106
Other income	54 024 735	62 787 859	61 166 285	1 621 574	51 672 760
Departmental charges	6 976 170	6 358 610	6 296 042	(62 568)	7 389 301
Transfers from reserves	20 319 807	43 542 410	148 588 990	105 046 580	108 474 549
Totals	762 746 392	803 874 789	926 662 525	122 787 736	793 571 670

4.1 User Levied Charges

The deviation is 0,27% which is to small to be linked to a specific problem. The growth in revenue of 8% from the previous year is very important and substantiates the economic growth that is experienced in the City.

4.2 Tariff Charges Levied

Intensified disconnection actions during the financial year were the main contributor to the success in this category. Growth can also be contributed to the general economic growth in the area.

4.3 Tariff Charges Other

The change over from conventional electricity to pre-paid electricity is the main reason for the improved income of R4 million in this category. A number of new extensions were developed and new houses that were build during the year.

4.4 Grants And Subsidies

Note 18 of the financial statements reflect the detail of grants and subsidies received.

The Inter Governmental Grant received from the National Government during 2006/2007 was mainly utilized to subsidize the indigent consumer debtors. The other grants and subsidies received were conditional and were used for the intended purpose.

4.5 Fines

The under-collection in traffic and parking meter fines is the result of insufficient law enforcement. A further challenge is the non-collection of fines, which is currently addressed through special operational actions. The back office will also be upgraded with new technology, which will improve the collection of fines in future.

4.6 Interest

Interest earned - external investments

The improve revenue from the current bank account and investments are the result of the slow capital and other spending.

Interest earned - outstanding debtors

Interest on arrear account exceeds the budgeted amount with approximately R600,000 for the year. Interest is raised at 15% per annum on arrear accounts.

4.7 Rental Income

Incomes from this source are generated from leasing of Council assets that are not utilized by Council.

5. TRADING SERVICES

5.1 Water

The deviation in income compared to the adjusted budget can be attributed to an increase in water sales over the latter half of the year. The surplus should have been higher, but increases in water losses depreciate some of the expected surpluses.

Description	Budget 2007	Adjusted Budget 2007	Actual 2007	Variance Actual / Adjusted Budget 2007	Actual 2006
	R'	R'	R'	R'	R'
Income	127 123 120	123 099 832	136 609 627	13 509 795	119 376 295
Expenditure	122 593 684	128 411 556	139 286 917	10 875 361	119 130 539
Surplus/(deficit)	4 529 436	(5 311 724)	(2 677 290)	2 634 434	245 757

Bulk water purchases:	69 145 990	75 281 920	75 215 872	65 418	63 554 272
Expenditure: Indigent subsidies	15 047 730	12 060 620	12 060 216	404	12 253 630

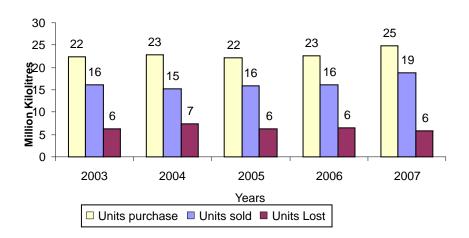

City of Matlosana

ANNUAL REPORT 2006

The distribution losses of 23,8%, 28,28%, 28,37% and 32,83% for the financial period 2006/7, 2005/2006, 2004/2005 and 2003/2004 respectively does not reflect a good picture and is high on the agenda to be rectified in the foreseeable future. It is clear that there is some improvement since the previous reporting periods. The township Hartbeesfontein is supplied with water from boreholes, which are not metered. Hartbeesfontein was excluded in this calculation. The main contributor for the water losses is the old and obsolete water infrastructure and water meters that are removed.

A number of budget transfers were done during the year to accommodate overspendings on purchase of water. It would seem as if the shortfall on the cost centre can be contributed to a reduction in gross profit as a result of line losses or that the tariffs were not cost related. Although tariffs cannot be adjusted during the year the situation will be monitored closely and if necessary, expenditure or budget will be adjusted during the adjustment budget process.

The following graph reflects electricity purchases, sales and distribution losses.

5.2 Electricity

Budget 2007	Adjusted Budget 2007	Actual 2007	Variance Actual/ Adjusted Budget 2007	Actual 2006
R'	R'	R'	%	R'
201 635 020	204 311 690	218 644 862	7%	195 165 761
172 551 690	174 297 485	190 782 650	9,5%	159 507 302
29 083 330	30 014 205	27 862 212	(7,2%)	35 658 459
14.42%	14.69%	12.74%	(15.01%)	18,3
102 680 850	105 716 570	105 660 613	(5,3%)	95 247 408
	2007 R' 201 635 020 172 551 690 29 083 330 14.42%	Budget 2007 R' 201 635 020 172 551 690 174 297 485 29 083 330 14.42% 14.69%	Budget Budget Actual 2007 2007 R' R' 201 635 020 204 311 690 218 644 862 172 551 690 174 297 485 190 782 650 29 083 330 30 014 205 27 862 212 14.42% 14.69% 12.74%	Budget Adjusted Budget Actual Actual/ Adjusted Budget 2007 R' R' R' % 201 635 020 172 551 690 29 083 330 204 311 690 3190 3218 644 862 3210 3290 3290 320 320 320 320 320 320 320 320 320 32

The difference between the schedule above and "Appendix D" in the Annual Financial Statements for City Electrical Engineer is contributed to the fact that "Appendix D" includes income and expenditure for the Garage, Workshop and Streetlights and excludes inter departmental charges.

Distribution losses are reduced on a year-to-year basis from 17,3% in 2005 to 10,8% in 2007. This is within the norm of 7% to 11% although it can still be improved.

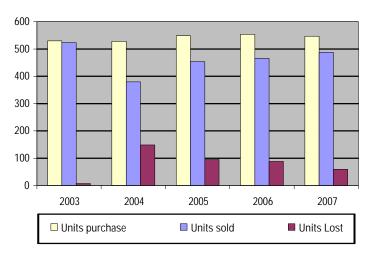

The increase in actual expenditure compared to the adjustment budget is mainly due to adjustments relating to transfers to and from reserves and grants. A disaster that damaged a huge portion of electricity infrastructure in Jouberton during the year also contributed to expenditure above the envisaged amount that was provided for in the adjustment budget. These adjustments affect both income and expenditure. It is thus important to evaluate the net

affect and ignore the detail for purposes of evaluating the financial performance. Although the deviation between the estimated net results is 7% of target, the original budget was lower and the net result differs with only 4% on that estimate.

The following graph reflects electricity purchases, sales and distribution losses.

5.3 Fresh-produce Market

Description	Budget 2007	Adjusted Budget 2007	Actual 2007	Variance Actual/ Adjusted Budget 2007	Actual 2006
	R'	R'	R'	R'	R'
Income	13 596 555	12 868 055	12 262 401	(605 654)	12 294 286
Expenditure	11 235 745	11 489 275	10 864 894	(624 381)	11 481 981
Surplus/(deficit)	2 360 810	1 378 780	1 397 507	18 727	812 305
Surplus/(deficit) as % of Income	17.36%	10.71%	11.40%	3.09%	6,6

The difference between the schedules above and "Appendix D" in the Annual Financial Statements for the Market is contributed to the fact that "Appendix D" excludes inter departmental charges.

Market dues are calculated at 5% commission on sales turnover. Due to decrease in prices on products, the income has underperformed by R600 000. The decrease in revenue was managed by corresponding savings in expenditure, which result in a net result that is very close to the estimated amount.

The decrease in actual expenditure compared to the adjusted budget is mainly due to savings in remuneration and general expenditure.

Although the total income for the year was R605 654 less than budgeted, the Market still manages to end the year with a surplus.

6. LONG-TERM DEBT

At the end of the financial year the outstanding debt were as follows:

Type of debt	2007	2006
Stock	0	0
Long-term loans	170 693 238	149 184 509
External funds: Total	170 693 238	149 184 509

Loans to finance the capital expenditure of 2005/6 were raised during the year under review. The amount of the loan raised was R29 million and an amount of R7,7 million was redeemed during the year which left a net change in long-term liabilities of R21,5 million. It is important to manage capital spending that is financed from loans. Affordability must always be evaluated. The current servicing of debt is around 9% of total operating expenditure. It is well within the national norm and is proof of well-balanced borrowing.

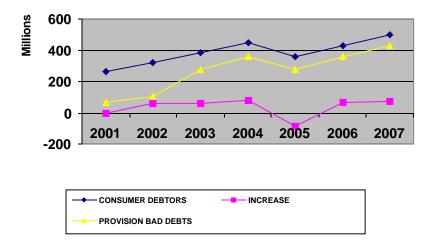

7. ACCUMULATED STATUTORY FUNDS AND PROVISIONS

Detail of the distributable reserves and provisions appears in Note 4 to the financial statements. In terms of legislation, surpluses in distributable reserves and provision for staff leave are to be invested until needed. The detail of the investments is provided in Note 14. Other reserves appear in the Statement of Financial Position under net assets.

8. DEBTORS

Details regarding the long-term receivables are provided in Note 10 to the financial statements.

As far as short-term debtors are concern, it is further explained in note 12 and 13 to the financial statements. The following graph reflects the Consumer debtor's and the growth since amalgamation:

The net outstanding consumer debtors decreased by R63 420, which in itself is not significant. The core problem of people not paying for the service and utility that they receive is still the biggest factor that contributes to the slow improvement of addressing backlogs on infrastructure. An amount of R72 million was once again necessary to be contributed to the provision of bad debts. This contribution is used to manage the cash flow by limiting expenditure. If payment can be improved, this type of contribution can be reduced and more resources can be made available for municipal service improvement. On the positive side it must be mentioned that the payment rate have been improved since the previous year which clearly contribute to a reduction in the contribution to the extent of R10 million.

The following is an indication of the effectiveness of credit control measures as well as the ability to convert debtors into cash:

	2007	2006	2005	2004
Description	R'	R'	R'	R'
Debits levied	511 488 463	463 152 316	449 596 565	409 364 522
Balance on 1 July	429 221 985	360 679 835	447 804 678	384 958 215
Balance on 30 June	501 250 082	429 221 985	360 679 835	447 804 678
Average balance	465 236 034	394 950 901	404 242 257	416 381 447
Turnover: Number of	1.08			
times		1.17	1.11	.98
Days	365	365.0	365.0	365.0
Turnover: Number of	338,0			
days		311.2	328.2	371.3

The above table indicates that outstanding consumer debts are at unacceptable levels. The number of days to recover these debts has decreased from 371.3 (2003/2004) to 311.2 (2005/2006) and have once again increase to 338 days in 2006/7. Although there is, still a slight improvement since 2004 it will have serious implication on the cash flow of Council over the long-term if continued on this trend.

A summary of the age analysis of consumer debtors as at 30 June 2007 is provided in note 12 of the financial statements.

9. CAPITAL EXPENDITURE AND FINANCING

As far as the capital expenditure is Council made concerned, substantial progress with the improvement of living conditions of the community and infrastructure backlog in certain areas.

The fixed assets expenditure for the year of R168,9 million is substantially more than the R126,4 million of the previous financial year.

The following table shows the distribution of the fixed assets according to the type of asset:

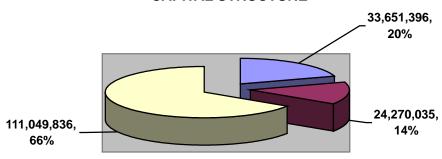

Type of Asset	Original Budget 2007	Adjusted Budget 2007	Actual 2007	Actual 2006	Grants and Subsidies 2007	Grants and Subsidies 2006
	R'	R'	R'	R'	R'	R'
Land	100 000	100 000	0	0	0	0
Buildings	15 319 990	29 170 322	29 385 087	7 887 485	21 006 957	3 741 030
Roads and Storm water drainage	52 235 665	54 751 351	29 769 269	24 056 362	16 339 194	8 845 397
Other infrastructure	93 767 297	214 381 798	93 046 411	76 698 235	72 612 781	55 894 332
Other fixed assets	16 595 200	19 180 656	16 770 500	17 775 459	1 090 904	6 562 087
Total	178 018 152	317 584 127	168 971 267	126 417 541	111 049 836	75 042 847

The above-mentioned fixed assets were financed from the following sources:

Type of finance	Budget	Adjustment Budget	Actual	Actual
	2007	2007	2007	2006
	R'	R'	R'	R'
External Loans	48 802 548	50 947 340	33 651 396	40 684 702
Capital replacement reserve	24 861 152	39 201 753	24 270 035	10 689 992
Grants: MIG	104 354 452	227 435 034	111 049 836	75 042 847
	178 018 152	317 584 127	168 971 267	126 417 541

CAPITAL STRUCTURE

■External loans ■Capital replacement Reserve □Grants

External loans to the amount of R29 million was raised to finance the capital expenditure for the 2005/6 financial year. Expenditure for the year under review that is to be financed from external loans will be funded by loans to be raised in the 2007/8 financial year. In the interim the funding is carried by own sources.

10. INVESTMENTS

External investments on 30 June 2007 amounted to R187,7 million compared to the approximately R122 million for 2005/06 which is a increase of R65,7 million. The main reason for the increase in investments is because a loan to finance capital expenditure was raised and the unspent portion of grants. An explanation for the investments is done in note 8 and 14 to the financial statements.

Investments as at 30 June 2007 were made at the following Institutions (see also note 8 and 14 of the Financial Statements)

INVESTMENTS AS	AT 30 JUNE 2007
INSTITUTION	AMOUNT
ABSA	R 45 372 339
Sanlam	R 4 323 440
First National Bank	R 65 481 616
New Republic Bank	R 419 679
Investec	R 65 095 175
Nedcor Bank	R 6 930 133
Total Fixed Investments	R187 622 382
Senwes	R 26 951
Total Investments	R 187 649 333

New Republic Bank Limited was placed under Curator ship. An amount of R4,5 million was originally invested at an interest rate of 11% per year. Fourteen (14) dividends to the amount of R3,3 million including interest were received since the bank was placed under curator ship. The Curator is uncertain of future collections and it does not appear as if Council will receive full payment of the capital that was invested. According to the curator, it is not possible to determine the shortfall at this stage. It is only speculation by the Curator at this stage and as soon as something is received in writing, the matter will be reported officially.

11. ACCOUNTING RATIOS

This portion of the report deals with some sort of benchmarking. Although there is no definitive basis for benchmarking in local government, one can use the current ratio, solvability and quick asset ration to draw some kind of a conclusion on the financial viability of Council. It is clear from all of the under mention results that in some sense the finances is managed very conservatively. The question to be answered is whether one can manage it any different when managing public money. Public money or service delivery should never be put at risk.

The evaluation of the municipality's liquidity position focuses on its cash resources, ability to generate cash from operations and the capacity to pay creditors and short-term loans on time. A crucial element of liquidity management is the effectiveness of its revenue collection. The current collection rate is well over 85% of levies. Compared against other local authorities in the North Wes province it is considered a very good payment rate. On a National basis, there are some municipalities of the same size that has a better payment rate but it should be compared against the background of ability to pay. This ability to pay must be taken into account when policies of financial strategy are considered.

11.1 Operating Ratio Or Current Ration:

Operating resources represents the surplus of current assets over current liabilities. This indicator determines the ability of the municipality to pay operational expenditure in the short-term.

The following table shows the calculation of the operating capital ratio:

Description	2006/2007	2005/2006	2004/2005	2003/2004
-	R'	R'	R'	R'
CURRENT ASSETS:				
Cash	32 667 396	23 879 196	152 800	14 805 374
Inventory	17 203 787	18 378 712	19 748 701	17 287 103
Debtors	140 859 601	114 233 634	123 145 388	116 675 333
Investments	180 692 249	115 748 289	147 553 669	77 023 606
Short-term portion of long-term debtors	688 165	416 501	847 626	697 810
Total	372 111 198	272 656 332	291 448 184	226 489 226
CURRENT LIABILITIES:				
Creditors	134 855 417	91 007 707	58 102 343	70 157 680
Short-term portion of long-term liabilities	10 198 194	6 804 845	11 129 281	5 703 215
Deposits	16 677 366	15 043 032	13 552 373	11 017 098
Overdrawn bank account	0	1 802	15 517 087	
Total	161 730 977	112 857 386	98 301 083	86 877 993
Operating Capital Ratio to 1	2.3	2.4	2.96	2.6

This ratio measures the extent to which the current liabilities are covered by the current assets. A larger coverage means a lower risk as short-term debt can be paid out of short-term assets. A ration of 2,3 is considered to be strong but conservative. A conservative ratio when dealing with public funds is considered good financial management. On the other hand, local government is perceived to be a stable environment and a lower current ratio would not be out of line. It is clear that the move is towards a lower ratio without being too eager to move towards a lower ratio.

The fact that some of the current assets are unspent funds of grants for capital projects must also be considered before a conclusion can be drawn from the ratio.

11.2 Quick asset ratio (Acid Test)

This ratio is a more accurate test of a local authority's ability to settle its short-term debt. When calculating this ratio, only assets that can be converted into cash are taken into account. As material and stock are for the own use and are not required by Institutions other than local authorities, they are not included in the calculations. A ratio of 1:1 is the norm.

The figures that follow reflect the quick asset ratio for the following years:

	2006/2007	2005/2006	2004/2005	2003/2004
Description	R'	R'	R'	R'
CURRENT ASSETS:				
Cash	32 667 396	23 879 196	152 800	14 805 374
Debtors	140 859 601	114 233 634	122 494 083	116 675 333
Investments	180 692 249	115 748 289	147 553 669	77 023 606
Short-term portion of	688 165			
long-term debtors		416 501	847 626	697 810
Total (Exclude Inventory)	354 907 411	254 277 620	271 048 178	209 202 123
CURRENT LIABILITIES:				
Creditors	134 855 417	91 007 707	58 102 343	70 157 680
Short-term portion of				
long-term liabilities	10 198 194	6 804 845	11 129 281	5 703 215
Deposits	16 677 366	15 043 032	13 552 373	11 017 098
Overdrawn bank account	0	1 802	15 517 087	
Total	161 730 977	112 857 386	102 962 068	86 877 993
Quick Asset Ratio	2.2	2.25	2.76	1.71

The result is also moving towards the 2:1 ratio, which is more relevant to local government. It is once again necessary to remember that a conservative approach is needed when dealing with public money and the fact that a whole community will be affected negatively if cash flow problems develop in the public sector.

11.3 Solvability

The solvability ratio is a measurement to compare the total assets to the total liabilities and to determine the ability of an authority to meet its obligations in the long term. A ratio of less than one is an indication of insolvency. The following table shows Matlosana calculation of the solvability ratio:

Description	2006/2007	2005/2006	2004/2005	2003/2004
	R'	R'	R'	R'
TOTAL ASSETS:				
Current assets	372 111 198	272 656 332	285 176 647	217 536 004
Plus: Gross Fixed Assets (Note 9.1 to the financial statements)	617 990 502	504 188 243	420 872 754	398 293 933
Total	990 101 700	776 844 574	706 049 401	615 829 937
TOTAL LIABILITIES:				
Current liabilities	161 730 977	112 857 386	94 403 927	81 955 470
Plus: Outstanding loans	160 495 044	142 379 664	147 456 675	148 117 889
Accumulated funds	26 339 222	26 468 860	23 114 947	19 200 292
Total	348 565 243	281 705 910	264 975 549	249 273 651
Solvability Ratio to 1	2.84	2.76	2.66	2.47

12. HOUSING

Council is busy with the erection of several low cost housing projects in the City.

These schemes are dealt with on a separate financial system and Bank account at ABSA Bank.

The National Housing Board funds these projects and beneficiaries are receiving a subsidy that varies from individual to individual.

13. AUDIT COMMITTEE

An audit committee was established and operated under the guidance of an audit charter and in terms of current legislation.

The Committee serves as a link between the Council, Management, Public, Internal- and External Auditors. Meetings were held and during these meetings, the reports were evaluated to address internal control measures and to monitor corrective actions.

The composition of the Audit Committee has been changed according to section 166 of the Municipal Finance Management Act (No 56 of 2003) and is as follows:

- Chairperson
- Two additional members
- Chief Internal Auditor

During the year, the members resigned and the audit committee did not function in terms of the above mentioned.

14. NATIONAL TREASURY

As a pilot municipality, the City of Matlosana is working closely with National Treasury to implement the new budget reform and other improved financial management initiative procedures through the Municipal Finance Management Support Program.

The budget process especially, has improved as far as medium-term planning and transparency is concern. The reform process will continue and improve in future until it is a truly world best practices system of budgeting and reporting. Matlosana has demonstrated commitment to implementing the financial reforms.

15. ASSET MANAGEMENT

At present, assets are recorded and capitalized on the historical cost basis and are not re-valued to current values. GAMAP/GRAP has been implemented as far as depreciation of assets is concern.

The City of Matlosana has implemented an asset management and bar-coding (tracking) system to identify assets and this register will form the backbone of the GAMAP principals. This project is still in process. As far as infrastructure assets unbundling are concern, Council has approved a new asset policy that is fully aligned to the Generally Accepted Municipal Accounting Practice (GAMAP) and Generally Accepted Accounting Practice (GAAP) standards. It is further aligned to identify, classify, record and revalue all current assets to current replacement cost and to implement a total asset management system and procedures for the entire organization.

16. GOING CONCERN

The financial position of the City has again improved since the previous year and although outstanding debtors are still on the increase, it is managed so that the financial sustainability is not affected negatively. The accumulated provision for bad debts is sufficient to cover for possible bad debts, but the non-payment of services is hampering service delivery and construction of new infrastructure.

Notwithstanding the non-payment, Matlosana can still be seen as a going concern and will be a going concern for the near future. Reference must be made of the rating of A2 (short-term) and BBB (long-term) that was done on the 2004/05 financial statements.

EXPRESSION OF APPRECIATION

I am grateful to the Executive Mayor, Mayoral Committee, Municipal Manager, Councilors and Departmental Directors for the support they have given to the department during the 2006/2007 financial year. A special word of appreciation is extended to the finance team for dedication to succeed in producing the annual financial statements on time and in terms of the new accounting standards.

IJ HAARHOFF CHIEF FINANCIAL OFFICER Date: 30 August 2007

(i) Property, Plant & Equipment:

During the year, the economic entity acquired property, plant & equipment with an agregate cost of R 160 252 369, of which R102 330 938was acquired by means of capital grants by the National Government. Cash Payments of R 57 921 431 was made to purchase property, plant and equipment. (GRAP 2)

ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2007

1. PREFACE

The accounting policy is aimed at describing additional information to the user of financial statements on the measurement used in the preparation of the statements that is not covered in the applicable accounting standards.

2. BASIS OF PRESENTATION

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practices (GRAP) and the Standards of Generally Accepted Municipal Accounting Practices (GAMAP) prescribed by the Minister of Finance in terms of:

- General Notice 991 of 2005, issued in Government Gazette no. 28095 of 7 December 2005; and
- General Notice 992 of 2005, issued in Government Gazette no. 28095 of 15 December 2005; and
- General Notice 522 of 2007, issued in Government Gazette no 30013 of 29 June 2007.

The standards are summarised as follows:

GRAP 1	Presentation of Financial Statements		
GRAP 2	Cash Flow Statements		
GRAP 3	Accounting Policies, Changes in Accounting Estimates and Errors		
GAMAP 4	The Effects of Changes in Foreign Exchange Rates		
GAMAP 6	Consolidated Financial Statements and Accounting for		
	Controlled Entities		
GAMAP 7	Accounting for Investments in Associates		
GAMAP 8	- J		
GAMAP 9	AP 9 Revenue		
GAMAP 12	Inventories		
GAMAP 17	Property, Plant and Equipment		
GAMAP 19	Provisions, Contingent Liabilities and Contingent Asset		
GAMAP 6,7 and 8 have been complied with to the extent that the			
requirements	requirements in these standards relate to the municipality's separate financial		
statements			

Accounting policies for material transactions, events or conditions not covered by the above GRAP and GAMAP Standards have been developed in accordance with paragraphs 7, 11 and 12 of GRAP 3. These accounting policies and the applicable disclosures have been based on the South African Statements of Generally Accepted Accounting Practices (SA GAAP) including any interpretations of such Statements issued by the Accounting Practices Board.

The Minister of Finance has, in terms of General notice 552 of 2007 exempted compliance with certain of the above-mentioned standards and aspects or parts of these standards. Details of the exemptions applicable to the municipality have been provided in the notes to the annual financial statements.

The municipality has elected to early adopt the following requirements in GRAP, GAMAP or SA GAAP, which were exempted in terms of General notice 552 of 2007.

Standard	Description of standard
GRAP 03	Accounting policies, changes in accounting estimates and errors (Full Compliance)

Standard	Description of standard
IAS 17 (AC 105)	Leases (Note exemption of certain aspects of standard in Notice 522) (Full Compliance)
IAS 19 (AC 116)	Employee Benefits (Full Compliance)
IAS 38 (AC 129)	Intangible assets (Note exemption of certain aspects of standard in Notice 522) (Full Compliance)
IFRS 5 (AC 142)	Non-Current Assets (Full Compliance)
IAS 11 (AC 109)	Construction Contracts (Full Compliance)
IFRS 3 (AC 140)	Business Combinations (Full Compliance)
IAS 20 (AC 134)	Accounting for Government grants (Full Compliance)

In addition to those parts of the standards that are exempted in terms of Notice 522, the Municipality will prepare an implementation plan that incorporates the following additional accounting standards: -

Standard	Description of standard
GAMAP 09	Revenue (Note exemption of certain aspects in Notice 522) (Full Compliance)
GAMAP 12	Inventories (Accept Exe mption in so far as the water stock is concern)
GAMAP 17	Property, plant and equipment (Note exemption of certain aspects of the standard in Notice 522) (Accept Exemption)
IAS 39 (AC 133)	Financial instruments: Recognition and measurement (Note exemption of certain aspects of standard in Notice 522) (Accept Exemption)
IAS 20 (AC 134)	Accounting for government grants and disclosure of government assistance (to the extent that it does not contradict GAMAP 9)
IAS 40 (AC 135)	Investment property (Note exem ption of certain aspects of standard in Notice 522) (Accept exemption on the portion of "fair value")
IFRS 7 (AC 144)	Financial Instruments (Accept Exemption)
IAS 14 (AC 115)	Segment Reporting (Accept Exemption)
IFRS 8 (AC 145)	Operating Segments (Accept Exemption)

The framework in which the financial statements were compiled is in line with both the guidelines of the International as well as the South African Accounting Standards Boards.

The main accounting policies adopted in the preparation of these annual financial statements are set out below.

Assets, liabilities, revenues and expenses have not been offset except when offsetting is required or permitted by a Standard of GAMAP or GRAP.

3. ACCRUAL BASIS OF RECORDING

The financial statements are prepared in terms of the accrual basis of accounting. The effects of transactions and other events are recognised when they occur and they are recorded in the accounting records and reported in the financial period to which they relate. This is done in terms of Standards of GRAP 1.31 to 1.32 and IAS 1.25 to 1.26.

4. PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand.

5. GOING CONCERN ASSUMPTION

The annual financial statements are prepared on the basis of a going concern. This assessment was made by Management in terms of Standards of GRAP 1.27 to 1.30 and International Accounting Standards 1.24 and 1.25.

6. OFFSETTING

No offsetting is done in either assets and liabilities or income and expenditure in line with Standards of GRAP 1.42 to 1.46 or IAS 1.32 to 1.35. It must be noted that provision for doubtful debts and accumulated depreciation (net Property, plant and equipment) does not constitute offsetting.

7. BALANCE STATEMENT/ STATEMENT OF FINANCIAL POSITION

The Balance Statement is represented by the Statement of Financial Position. The Statement of Financial Position will be divided into current- and non-current (net assets) assets and current and non-current liabilities in terms of Standards of GRAP1.62 and not in terms of liquidity.

8. HOUSING DEVELOPMENT FUND

The Housing Development Fund was established in terms of the Housing Act, (Act No. 107 of 1997). Loans from national and provincial government used to finance housing selling schemes undertaken by the Municipality were extinguished and transferred to a Housing Development Fund.

The Housing Act prescribes the utilisation of this fund and monies standing to the credit of the Housing Development Fund. It can be used only to finance housing developments within the municipal area subject to the approval of the Provincial MEC responsible for housing.

9. RESERVES

9.1. CAPITAL REPLACEMENT RESERVE (CRR)

In order to finance the provision of infrastructure and other items of property, plant and equipment from internal sources, funds are transferred from the accumulated surplus/(deficit) to the CRR. An amount equal to the actual spending from CRR is contributed to the CRR from the Accumulated Surplus/ (Deficit) to finance the expenditure.

9.2. CAPITALISATION RESERVE

Resulting from the implementation of GAMAP/GRAP, the balance on certain funds, created in terms of the various Provincial Ordinances applicable at the time, that had historically been utilised for the acquisition of items of property, plant and equipment, have been transferred to a Capitalisation Reserve in terms of a directive (budget circular) issued by National Treasury. The purpose of this Reserve is to promote equality by ensuring that the future depreciation expenses that will be incurred over the useful lives of these items of property, plant and equipment are compensated by transfers from this reserve to the accumulated surplus/ (deficit).

The balance on the Capitalisation Reserve equals the carrying value of the items of property, plant and equipment financed from the applicable funds. When items of property, plant and equipment are depreciated, a transfer is made from the Capitalisation Reserve to the accumulated surplus/ (deficit).

When an item of property, plant and equipment is disposed of, the balance in the Capitalisation Reserve relating to such an item is transferred to the accumulated surplus/ (deficit).

9.3. GOVERNMENT GRANT RESERVE

When items of property, plant and equipment are financed from government grants, a transfer is made from the accumulated surplus/(deficit) to the Government Grants Reserve to an amount equal to the Government Grant and recorded as revenue in the Statement of Financial Performance in accordance with a directive (budget circular) issued by National Treasury. When such items of property, plant and equipment are depreciated, a transfer is made from the Government Grant Reserve to the accumulated surplus/(deficit). The purpose of this policy is to promote equal utilization of the grant by ensuring that the future depreciation expenses are spread over the useful economical life of the asset without prejudicing future consumers.

When an item of property, plant and equipment financed from government grants is disposed, the balance in the Government Grant Reserve relating to such item is transferred to the accumulated surplus/(deficit).

9.4. DONATIONS AND PUBLIC CONTRIBUTIONS RESERVE

When items of property, plant and equipment are financed from public contributions and donations, a transfer is made from the accumulated surplus/(deficit) to the Donations and Public Contributions Reserve equal to the donations and public contributions recorded as revenue in the Statement of Financial Performance in accordance with a directive (budget circular) issued by National Treasury. When such items of property, plant and equipment are depreciated, a transfer is made from the Donations and Public Contributions Reserve to the accumulated surplus/(deficit). The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the future depreciation charges that will be incurred over the estimated useful life of the item of property, plant and equipment financed from donations and public contributions.

When an item of property, plant and equipment financed from Donations and Public Contribution reserves grants is disposed, the balance in the Donations and Public Contributions Reserve relating to such item is transferred to the accumulated surplus/ (deficit).

9.5. SELF INSURANCE RESERVE

The Municipality operates a Self-Insurance Reserve to set aside amounts to offset potential losses or claims that are not fully insured externally (adapt to specific circumstances). The balance of the Self-Insurance Reserve is based on estimated insurance risk carried by the Municipality. The contribution towards the Reserve is made from the operating account. The balance of the self-insurance fund is invested in short-term cash investments.

Own claims are settled by transferring a corresponding amount from the self-insurance reserve to the accumulated surplus.

9.6. EX-GRATIA PENSION RESERVE

The Municipality operates an ex-gratia pension fund with the purpose to provide an ex-gratia amount to employees who do not have membership of a pension fund at retirement. The contributions towards the Reserve are made from the operating account. The balance of the ex-gratia pension fund is invested in cash investments.

10. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment, is reflected at the net of cost less accumulated depreciation. Heritage assets, which are culturally significant resources and which are shown at cost, are not depreciated because of the uncertainty regarding their estimated useful lives. Similarly, land is not depreciated as it is deemed to have an indefinite life.

Where items of property, plant and equipment have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified.

The cost of an item of property, plant and equipment acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets was measured at its fair value. If the acquired item could not be measured at its fair value, its cost was measured at the carrying amount of the asset given up.

Subsequent expenditure is capitalised when the recognition and measurement criteria of an asset are met.

Depreciation is calculated on cost, using the straight-line method over the estimated useful lives of the assets. The annual depreciation rates are based on the following estimated asset lives:

Infrastructure	<u>Years</u>	Other	<u>Years</u>
Roads and Paving	10-30	Buildings	30
Electricity	20-30	Other vehicles	3-20
Water	15-20	Office equipment	5-10
Sewerage	15-20	Furniture and fittings	7-10
Specialised plant and equipment	5-15	Other items of plant and equipment	3-15

City of Matlosana
ANNUAL REPORT 2006 -

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount it is written down immediately to its recoverable amount and an impairment loss is charged to the Statement of Financial Performance.

11. INVESTMENTS

11.1. FINANCIAL INSTRUMENTS

Financial instruments, which include listed government bonds, unlisted municipal bonds, fixed deposits and short-term deposits invested in registered commercial banks, are stated at cost.

Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Financial Performance.

11.2. INVESTMENT IN MUNICIPAL ENTITIES

Investments in municipal entities under the ownership control of the Municipality are carried at cost of invested amount.

12. INVENTORIES

Consumable stores, raw materials, work-in-progress and finished goods are valued at the lower of cost and net realisable value. In general, the basis of determining cost is the first-in, first-out method. The value of the Faan Meintjes Reserve is based on 100% of the current realisable value as at 30 June annually. Land developed for re-sale within one year is classified as an inventory item. The value of the stands is calculated at:

- Councils resolution Rand per square meter or
- Municipal valuation

GAMAP12 are not fully complied with in so far as water stock is concern. Water stock in the network qualifies as an asset (inventory) in terms with GAMAP12.07 and should be recorded as such. The water stock is not calculated or measured at this stage, but will be done in future as part of the phased in approach approve by the minister in Government Gazette no.522 dated 29 June 2007.

13. LEASES

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to Council.

Operating leases are those leases that do not fall within the scope of the above definition. Operating leases rentals are expensed as they become due.

14. ACCOUNTS RECEIVABLE

Accounts receivable are carried at the accrued value. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end. Bad debts are written off during the year in which they are identified. Amounts that are receivable within 12 months from the reporting date are classified as current.

15. TRADE CREDITORS

Trade creditors are stated at their nominal value.

REVENUE RECOGNITION

16.1. REVENUE FROM EXCHANGE TRANSACTIONS

Service charges relating to electricity and water are based on consumption. Meters are read on a monthly basis and are recognised as revenue when invoiced. Provisional estimates of consumption are made monthly when meter readings have not been taken. The provisional estimates of consumption are recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. Revenue from the sale of electricity prepaid meter cards are recognised at the point of sale.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on removal once per week.

Service charges from sewerage and sanitation are based on the number of sewerage connections on each developed property using the tariffs approved from Council and are levied monthly.

Interest and rentals are recognised on a time proportion basis that takes into account the effective yields on assets.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant gazetted tariff. This includes the issuing of dog licences and permits.

Revenue from the sale of goods is recognised when the risk is passed to the consumer.

Revenue from public contributions is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment is brought into use. Where public contributions have been received but the municipality has not met the condition, a liability is recognised

16.2. REVENUE FROM NON-EXCHANGE TRANSACTIONS

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportion basis.

Fines constitute both spot fines and summonses. Revenue from spot fines and summonses is recognised when payment is received.

Donations are recognised on a cash receipt basis or where the donation is in the form of property, plant and equipment, when such items of property, plant and equipment are brought into operation.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No. 56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

17. CONDITIONAL GRANTS AND RECEIPTS

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the Municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met, a liability is recognised.

18. PROVISIONS

The provision for the accumulated leave of staff that is redeemable complies with the definition of a provision. Additional notes on the detail of the provision as well as the total liability are reflected in the Annual Financial Statements.

Provisions are recognised when the Municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting sheet date and adjusted to reflect the current best estimate.

19. CASH AND CASH EQUIVALENTS

Cash includes cash on hand and cash with banks. Cash equivalents are short-term highly liquid investments that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks and investments in financial instruments, net of bank overdrafts.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred.

20. UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No. 56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

21. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No. 56 of 2003), the Municipal Systems Act (Act No. 32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

22. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

23. COMPARATIVE INFORMATION

23.1 CURRENT YEAR COMPARATIVES:

Budgeted amounts have been included in the annual financial statements for the current financial year (see Annexure E(2)).

23.2 PRIOR YEAR COMPARATIVES:

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are reclassified. The nature and reason for the reclassification is disclosed.

BORROWING COSTS

Borrowing costs are recognised as an expense in the Statement of Financial Performance.

25. CASH FLOW STATEMENT

For the purpose of the cash flow statement, cash and cash equivalents comprise of cash on hand, deposits held on call with banks and investments in financial instruments, net of bank overdraft.

26. RETIREMENT BENEFITS

Councillors and employees as well as Council contribute to the following pension and provident funds, which provide retirement benefits to such Councillors and employees:

Municipal Employees Gratuity Fund Pension Fund for Municipal Councillors National Fund for Municipal Workers SALA Pension Fund SAMWU provident Fund Municipal Employees Pension Fund

Actuarial valuations are done as follows:

Municipal Employees Gratuity Fund: Pension Fund for Municipal Councillors: National Fund for Municipal Workers: Municipal Employees Pension Fund: SAMWU provident Fund: SALA Pension Fund: Actuarial valuation is done every 2 years Actuarial valuation is done every 3 years Not required to do actuarial valuation Actuarial valuation is done every 2 years Not required to do actuarial valuation Actuarial valuation is done every 3 years

Council does not operate or are not involve in a guaranteed benefit pension scheme. The above schemes are only based on guaranteed contributions from the side of the Employer.

Council do not grant any new car loans as it is prohibited by the MFMA. The current car loans are those that were granted before the start of the MFMA and were granted to Managers at an interest rate between 8% and 11%. Different loan schemes were in place. New loan were based on 40% to 55% of the Manager's total remuneration package and the repayment period did not exceeded the term of the Manager's contract.

BURSARY/STUDY LOANS

Different loan schemes were in place. Loans were granted to officials and public for study purposes at various interest rates and repayable over a maximum period of 5 years. In terms of MFMA no new loans may be granted.

SPORT BODIES

Different loan schemes are in place for various sporting bodies. The interest rates fluctuate between 5% to 15% repayable over a period from 5 years to 20 years. The MFMA also stopped this practice.

HIGH TENSION CONNECTIONS

Council do not grant any high tension loans as it is prohibited by MFMA. High tension loans were granted to public who made applications to the Council. The maximum loan amount should be R 35 000. Loans were determined at 15% interest rate and repayable over a period of 60 months.

SALE OF STANDS

Stands were sold to public and is also prohibited by the MFMA. Sale of stands were determined at 15% interest rate repayable over a period of 60 months.

SALE OF HOUSES

Houses were sold to public and is also prohibited by the MFMA. Sale of houses were determined at 15% interest rate repayable over a period of 60 months.

ABATTOIR

The abattoir surety holder has been liquidated and a civil claim is pending. The opinion is that the full amount will not be recovered. A calculation of possible recovery is not possible at this stage. The Abattoir was also put on tender subsequent to the compilation of the statements. An amount of R 2,508 million was tendered and the tender has been accepted. The claim against the previous purchaser is continuing.

	Total Inventory	17 203 787	18 378 71:

The Council did not recognised the purchased of water stock in the annual financial statements for the 2006/07 financial year due to the exemption granted in Gazette 30013. See note 28.6 for inventory shortages and surpluses. The nature of calculating the estimated value of Nature Reserve (Wild Stock) was changed from 50% in the 2005/06 financial year to 100% in the 2008/07 financial year. If this policy was applied in previous years it would have resulted in a larger surplus and the stock value would have been R2,8 m more. This change in estimation is reported in terms of GRAP3.39 and will be used in future. The effect on future estimates are impracticable to estimate at this stage.

The Council and its employees contribute to various municipal pension funds, whilst Councilors contribute to the Pension Fund for Councilors. Both funds provide retirement benefits to the employees and Councilors respectively. Employees have a choice between a pension benefit and a gratuity benefit.

Current contributions are levied against operating income based on current service costs.

A full actuarial calculation is done at least every three years.

An amount of R26 447 338 was contributed by Council in respect of councilor and employees retirement funding. These contributions have been expensed.

Certain employees were prevented from joining Council's retirement funds. In terms of Council's employment policies, an obligation to provide pensions exists. These amounts are expensed on payment. The actuarially determined liability, which was calculated in 2007, is R 139 091. Provision has been made for this amount.

CHAPTER 5

Functional Area Service Delivery Report

Functional Area Service Delivery Report

GENERAL INFORMATION Executive & Council

OVERVIEW

The municipal area is characterized by the scattered four urbanized areas and still functioning as separate entities on micro level. The residential areas of the mines and Dominionville are dependent on the urbanized areas for commercial support.

General Information	<u>Total</u>
1. Geography	
Geographical Area	3 562km ²
2. Demography	
High above sea level	Between 1 300m and 1 600m
3. Population	
➤ Urban	522 596
➤ Villages	2 775
➤ Farm land	22 882
Total	548 253
4. Population per gender	
➤ Male (49,6%)	271 934
> Female (50,4%)	276 319
5. Number of households	
➤ Urban	117 892
➤ Village	307
Total	118 199
6. Indigent population (Registered)	36 279
7. Total number of voters	174 032
8. Age Breakdown of population	
▶ 65 years and over	21 930
Between 18 and 64 years	361 847
> 18 years and under	164 476
9. Household income per month	
> Less than R1 100	36 279

POLITICAL OFFICES

VISION

To establish and maintain a structure that will, operate within the ambit of legislation governing local government and good governance and provide good administration, timeous and effective execution of tasks as well as providing an environment conducive for public participation.

MISSION

To ensure good administration and support to the political incumbent in the office, as well as all councillors within the budgetary constraints.

OPERATING STRUCTURE

The Executive and Council are divided into the following two political offices:

- · Office of the Executive Mayor
- · Office of the Speaker
- · Office of the Chief Whip

SERVICE DELIVERY

OFFICE OF THE EXECUTIVE MAYOR

Overview

The Executive Mayor's role is to preside at meetings of the Mayoral Committee and to perform the duties, including ceremonial functions, and exercises the powers delegated to the Executive Mayor, by the Municipal Council, as set out in chapter 4 of the Local Government: Municipal Structures Act, 1998. The Executive Mayor is assisted, in terms of the Local Government, Municipal Structures Act, 1998, by the 8 members of the Mayoral Committee, each of whom has a different port folio committee. The Executive Mayor is further assisted by 4 Chief Whips of the different parties and 1 Council Whip.

Description of the Activity

- To preside at meetings of the Mayoral Committee
- To perform the necessary duties, including any ceremonial functions
- Exercises the powers delegated to the Executive Mayor, by the Municipal Council, as set out in Chapter 4 of the Local Government: Municipal Structures Act, 1998

Strategic objectives

- · Advance the process of Local Government transformation
- Identify the needs of the municipality
- · Review and evaluate those needs in order of priority
- Develop strategic programmes and services
- · Address priority needs through the Integrated Development Plan
- Estimate revenue and expenditure
- Taking into account any applicable national and provincial development plans and determine in the best way, including partnerships and other approaches
- Deliver those programmes and services to the maximum benefit of the community

Key issues for 2007/2008

- · The interface between EXCO and Council to align administrative and political priorities of Council managed
- Strategic development of the Office of the Mayor
- Effective communication with stakeholders
- Effective Council administration

OFFICE OF THE MUNICIPAL MANAGER

OFFICE OF THE Municipal Manager

SUPPORT SERVICES UNIT

PERFORMANCE MANAGEMENT

Overview

The PMS is the central management tool which assist the Council to improve service delivery by channelling the efforts of its departments and employees to meet performance targets and in so doing ensure that the municipality achieves its strategic objectives.

It is a strategic approach to management, which equips leaders, managers, employees and stakeholders at different levels with a set of tool and techniques to regularly plan, continuously monitor periodically measure and review performance of the organisation in terms of indicators and targets for efficiency, effectiveness and impact. This system will therefore ensure that all leaders, managers and individuals in. The municipality are held accountable for their actions, which should bring about improved service delivery and value for money.

Description of the activity

The Municipal Systems Act 2000 (Act 32 of 2000) prescribed that a municipality must ensure the following:

- Establish a Performance Management System
- Develop a Performance Management System
- Establish mechanisms to monitor and review its Performance Management System by:
 - Set appropriate key performance indicators;
 - Set measurable performance targets;
 - Institute a monitoring process to monitor the above;
 - Institute a process to measure and review performance;
 - A process of regular reporting
- Follow appropriate mechanisms, processes and procedures to involve the local community in the development, implementation and review of the municipality's performance management system and, in particular, allow the community to participate in the setting of appropriate key performance indicators and performance targets.
- Report on general key performance indicators;
- Make known, to the general public, the key performance indicators and performance targets;
- Audited the results of performance measurements;
- Prepare a performance report reflecting for each financial year:
 - The municipality's, and any service provider's performance during that financial year;
 - The development and service delivery priorities and the performance targets set by the municipality for the following financial year;
 - Measures that were or are to be taken to improve performance.

Strategic objectives

The following strategic objectives should be adhered to throughout the performance management process:

- Ensure measurement of the organisational performance
- Meet strategic development requirements
- Integrate organisational performance management into the management processes
- Ensure that strategic objectives of the organisation are cascaded down and linked to performance plans of teams
- Address input, output and outcome measures
- Cater for sustainable and continuous service improvement
- Have a strong customer and community involvement facilitated through existing IDP processes
- Identify what is needed for an information management system
- Be simple and easy to apply
- Ensure internal capacity building and skills development and be linked to the Municipal Capacity Building Programme
- Facilitate change management

- Provided a basis for a link between organisational performance and individual performance
- Provide a framework for auditing performance
- Allow for benchmarking
- Allow for systematic and phased or incremental implementation
- Allow for the recognition and reward of high performing teams or organisations through the creation of an award scheme

Key issues for 2007/2008

- Develop a Performance Management System capable of measuring the contribution of people in managerial positions
- Quarterly Service Delivery and Budget Implementation Plan report submitted to the council
- Coordinate Participation in the Vuna & Cleanest City Award Programs
- Restructuring of the organogram and approval by Council
- Report on the restructuring of supply chain management submitted to the office of the Municipal Manager

SUPPLY CHAIN MANAGEMENT

Overview

To execute procurement in a transparent and equitable manner favouring the local economy and redressing historical imbalances.

Description of the activity

- Tenders and contracts: the conclusion of contracts through the tender process.
- Ensure compliance with all existing and new legislation.
- Control, co-ordination and execution of procurement.
- Review and update all Supply Chain Management policies and procedures.
- Compiling a database of all suppliers of products and services.
- Facilitate financial assistance to SMME's.
- Provide training in procurement procedures to entrepreneurs.
- Ensure compliance with all existing and new legislation.

Strategic objectives

- Increase tenders to be awarded to women, youth and disabled persons
- Facilitate the identification and certification of businesses from designated sectors of society
- Making procurement readily available to designated businesses
- Increase the rand value of procurement spent towards the designated businesses
- Skills development and training courses
- Workshops to comply with legislation

Key issues for 2007/2008

- Effective administrative and institutional systems, structures and procedures
- · Sustainable community investment programmes introduced and implemented
- · Conclusion of tender contracts within 8 weeks
- Arrange tendering and supplier development workshops
- Ensure that 50% of tenders are awarded to HDI

INTERNAL AUDIT UNIT

Overview

Internal Auditing is an independent appraised function established within the Municipality to examine and evaluate the Municipalities activities.

The role of Internal Audit is that of a service to management. As a management service, the function has to be recognised as an integral part of the management structure and part of the fabric of trust.

Description of the activity

The purpose of internal auditing is to provide independent, objective assurance and consulting services designed to add value and improve the organization's operations. It helps the organization accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes. The Internal Audit Activity (IAA) intends to function in a manner that ensures that:

- Risks are appropriately identified and managed
- Significant financial, managerial, and operating information is accurate, reliable, and timely
- Employees' actions are in compliance with policies, standards, procedures, and applicable laws and regulations
- Resources are acquired economically, used efficiently, and adequately protected;
- Programs, plans, and objectives are achieved
- Significant legislative or regulatory issues impacting the organisation are recognized and addressed appropriately.

Opportunities for improving management control, operations, and the organisation's image may be identified during audits. The IAA shall communicate identified opportunities and risks to the appropriate levels of management.

Strategic Objectives

The primary objective of Internal Audit is to assist the Accounting Officer and the Audit Committee in the effective discharge of their responsibilities; Internal audit will provide them with independent analysis, appraisals, recommendations, counsel and information concerning the activities reviewed, with a view to improving accountability and performance.

The mission of the IAA is to provide the organization with a value added internal audit function by assisting management in controlling risk, monitoring compliance, corporate governance and improving efficiency and effectiveness of the internal control system.

Internal Audit follows an integrated approach, which places emphasis on the identification of risks, the prioritising thereof and testing of controls over key risk areas. The integrated audit approach combines two types of audit engagements, i.e. assurance and consulting services.

The scope of the audits includes the examination and evaluation of the adequacy and effectiveness of the organisation's system of internal control and the quality of performance in carrying out assigned responsibilities. The scope includes the following:

- Review the reliability and integrity of financial information and the means to identify measure, classify and report such information
- Review the systems established to ensure compliance with those policies, plans, procedures, laws and regulations which could have a significant impact on operations and reports
- Review the means of safeguarding assets and where appropriate, verify the existence of such assets
- Review operations or programmes to ascertain whether or not results are consistent with established objectives and goals and whether or not the operations are being carried our as planned
- Communicate the results of work performed to management

DIRECTORATE Infrastructure & Utilities

DIRECTORATE Infrastructure & Utilities

CIVIL ENGINEERING SERVICES

VISION

To provide and maintain quality sustainable civil engineering services.

MISSION

The development and management of an affordable, appropriate and high quality civil engineering and building environment services, to continuously improve quality life in a sustainable, safe, economical, equitable, integrated, environmentally sensitive and participatory manner.

OPERATING STRUCTURE

The department provides the following services:

- Support & Administration
- Development Planning and Building Control
- · Road, Storm-water
- · Waste Landfill Sites
- Water
- Sewerage
- Building Construction

SERVICE DELIVERY

SUPPORT & ADMINISTRATION

Overview

This section is rendering a general support and administrative service, while liaisoning with all internal sections, other departments and communicating with community members about the rendering of town-planning, building survey, building construction, water, sewerage, roads and storm-water services and waste landfill sites.

Description of the Activity

The following support services are provided:

- General administrative support to all the departmental sections
- Typing of all correspondence and reports
- Receive and distribute correspondence
- Collect written comments on applications received or complaints and distribute it to relevant departments or individuals
- Manage the departmental filing system
- General personnel management such as leave administration, personnel inquiries and disciplinary actions
- Assist with the calling of tenders and quotations and Council's procurement process
- Involved in the department's financial management through inputs in the budgetary process, budget control and submission of financial reports
- Arrange meetings as well as compile and distribute agendas and minutes of the meetings
- The application of the Occupational Health and Safety Act
- The compilation of Standard Work Procedures and Management Directives

DEVELOPMENT PLANNING AND BUILDING CONTROL

Overview

The Development Planning and Building Control Section are responsible for all activities associated with development initiatives of erven of Council and in support of the private sector.

Description of the Activity

- · Ongoing spatial planning for the entire municipal area
- Ensure development facilitation of all new property development
- Policy foundation to standardize the land use application processes and to ensure that legislation governing it is implemented correctly and consistently
- Effective land use management
- Control management of outdoor advertising in the city
- Up-keeping of the Geographic Information System
- Deals with all building plans submitted for approval and the related inspections for such premises during construction
- The provision of basic Building inspection services
- Building surveying and control maintained on a monthly basis
- Approved Spatial Development Framework

Strategic objectives

- · Create an environment receptive for development
- Guide development in the municipal area according to policy

Key issues for 2007/2008

- Ensure the up-keeping of valuation information
- Approve building plans within one month after submission
- Ensure compliance with NBR by carrying out inspections
- Approve applications for outdoor advertise within seven days of submission
- To ensure that the urgent need for housing is addressed in the best affordable manner
- % new access to housing in terms of households
- Project Plan developed for Housing development

ROADS AND STORM-WATER

Overview

The planning, provision and maintenance of roads and storm-water infrastructure are the responsibilities of the Road, Storm-water and Landfill sites section.

Description of the Activity

The road and storm-water drainage maintenance and construction responsibilities of the municipality are administered as follows and include:

- · Creating of new infrastructure
- Ongoing assistance to ensure that new developments are expedited and roads and storm-water drainage infrastructure is provided in accordance with standards and specifications.
- Analysis of all aspects of the existing roads, network and storm-water drainage system to pro-actively identify ageing infrastructure, problems and bottlenecks in the flow of traffic
- Continuous management and control to ensure the optimum availability of the road network to the public and proper storm-water drainage

Strategic objectives

- Plan for and provide roads and storm-water infrastructure to support and facilitate economic growth and to promote social development
- Keep roads and storm-water drainage infrastructure maintainable and serviceable
- Promote traffic control systems in conjunction with the Public Safety Department to improve flow of traffic
- Alleviate traffic congestion
- Provide the management and support services needed

Key issues for 2007/2008

- Maintenance of existing gravel and tar roads
- Maintenance of storm-water system
- To develop a program for bringing relief to residents who suffer from the impact of rain- and storm water in areas where muddy conditions and un-surfaced roads are the norm
- % Progress on the elimination of service backlogs
- Provision of visible road signage by 2008

WATER

Overview

Water distribution involves the bulk purchase of water and its distribution by the Water Section.

Description of the Activity

- · Creating of new infrastructure from distribution of the water to the consumer
- Purchase and storage of water in bulk
- Distribute the water through a water network that includes pump-stations, pipes, and water-meters
- Test and replacement of water-meters
- · Water quality testing and treatment
- Ongoing assistance to ensure that new developments are expedited and water infrastructure is installed in accordance with standards and specifications
- Analysis of all aspects of the existing water-supply system to pro-actively identify worn-out infrastructure, problems and bottlenecks
- Continuous management and control to ensure the optimum availability of the water supply infrastructure

Strategic objectives

- Render sustainable bulk water service by supplying adequate water of the good quality on a continuous basis and at an affordable cost to the consumers
- Provide, operate and maintain the water distribution system to meet the needs of all consumers and reduce unaccounted water

Key issues for 2007/2008

- Further introduce water management measures to reduce water unaccounted for
- Provide water networks with water-meters to un-serviced households
- Project Plan developed for Khuma Bulk Supply
- Project Plan developed for Water Meter Replacement

SEWERAGE

Overview

To contribute to the enhanced quality of life and prosperity of all the people in the municipal area by providing an affordable, efficient and cost effective sanitation service through a well established and maintained infrastructure. The enhanced quality of life includes the eradication of the bucket system being replaced with proper and healthy water borne sewer system.

Description of the Activity

- Design sewer networks for new development
- Implement maintenance programmes on sewer installations
- Treatment of waste water (sewerage and effluent) to statutory standards
- Reception of attendance to sewerage related complaints
- Contract and construction management of new sewer network infrastructure

Strategic objectives

- · Provide a service that is safe to human and the environment
- To purify sewerage to specified standards

Key issues for 2007/2008

- Ensure the completion of the installation of sewer networks as identified in the IDP
- Ensure maintenance of main sewers
- To eliminate 150 vacuum tanks in Hartbeesfontein
- To eliminate 13 568 night soil buckets by constructing toilets connected to the sewer networks
- Ensure the completion of the upgrading of the Klerksdorp Waste Water Treatment Plant
- Percentage progress on the Increase Orkney Water Works Treatment Plant project
- Project Plan developed for Increase Orkney Water Works Treatment Plant
- Total spending on the project
- Percentage progress on the Bucket eradication project

BUILDING CONSTRUCTION

Overview

The maintenance and construction of Council buildings.

Description of the Activity

- Handling of complaints and requests on municipal buildings
- Design and implement new constructions
- · Implement maintenance programmes on municipal building

Strategic objectives

- Assist departments in good time and effectively maintaining buildings under their control
- Undertake minor construction work required by Departments
- Liaise with Consultants with regards to larger construction projects on behalf of Departments
- To complete projects within the financial year

Reline Jan van Riebeeck road (Stilfontein) water main by February 2007	100% Relined Jan van Riebeeck road (Stilfontein) water main	208 erven	(iii) 25 erven
Install a water network in Tigane Ext 5 (208 Erven) by November 2006	100% Installed water network in Tigane Ext 5 (208 Erven)	100%	100%
Install a rural water supply in Uraan, Oblate, Maputle and Nkagisang by September 2006	100% Installed rural water supply in Uraan, Oblate, Maputle and Nkagisang	100%	100%
Install a water supply to rural schools and clinics by December 2006	100% Installed water supply to rural schools and clinics	100%	(iv) 85%
Install a water network at Nooitgedacht holdings by December 2006	100% Installed water network Nooitgedacht holdings	100%	(v) 95%
Install 2 M? pressure tower and pump-station in Khuma by June 2007	100% Install 2 M? pressure tower and pump-station in Khuma	100%	100%
Install a bulk water supply in Alabama Ext 3 by February 2007	100% Installed bulk water supply in Alabama Ext 3	100%	100%
Install water pressure management system by June 2007	100% Installed water pressure management system	100%	(vi) 75%

Install a water meter replacement programme	100% Installed water meter replacement	100%	100%
by June 2007 Install sewer network in Khuma Ext 6 (683 Erven)	programme 100% Installed sewer network in Khuma Ext 6	100%	100%
by December 2006 Install sewer network in	(683 Erven) 100% Installed sewer	100%	100%
Khuma Ext 10 (157 Erven) by October 2006	network in Khuma Ext 10 (157 Erven)	100%	100%
Install sewer network in Jouberton Ext 23 (1185 Erven) by April 2007	100% Installed sewer network in Jouberton Ext 23 (1185 Erven)	100%	100%
Install rural sanitation at Wildebeeslaagte / Palmietfontein by February 2007	100% Installed sanitation at Wildebeeslaagte / Palmietfontein	100%	(vii) 90%
Upgrade mechanical and electrical equipment Klerksdorp WWTP and pump station by January 2007	100% Upgraded mechanical and electrical equipment Klerksdorp WWTP and pump station	100%	100%
Install sewer network in Jouberton Ext 7 (11 Erven) by March 2007	100% Installed sewer network in Jouberton Ext 7 (11 Erven)	100%	100%
Install sewer network in Khuma Ext 1 (Erven 2821 to 2823) by December 2006	100% Installed sewer network in Khuma Ext 1 (Erven 2821 to 2823)	100%	100%
Install sewer network in Tigane Ext 1 (Erven 409 to 415) by January 2007	100% Installed sewer network in Tigane Ext 1 (Erven 409 to 415)	100%	100%
Install sewer network in Tigane Ext 5 (232 Erven) by January 2007	100% Installed sewer network Tigane Ext 5 (232 Erven)	100%	100%
Reline Orkney outfall sewers by March 2007	100% Orkney outfall sewers relined	100%	(viii) 15%
Install sewer network in Kanana Ext 13 (602 Erven) by January 2007	100% Installed sewer network Kanana Ext 13 (602 Erven)	100%	100%
Install sewer network in Jouberton Ext 19 West (685 Erven) by March 2007	100% Installed sewer network Jouberton Ext 19 West (685 Erven)	100%	100%
Install sewer network in Jouberton Ext 20 (991 Erven) by March 2007	100% Installed sewer network Jouberton Ext 20 (991 Erven)	100%	65% (ix)
Increase Klerksdorp WW treatment plant to 30 MI /day by March 2007	100% Increased Klerksdorp WW treatment plant	100%	95% (x)
Increase Orkney WW treatment plant 20 MI /day by June 2007	100% Increased Orkney WW treatment plant	100%	95% (x)

Install sewer network in Tigane Ext 6 (699 Erven) by March 2007	100% Installed sewer network Tigane Ext 6 (699 Erven)	100%	100%
Install sewer network in Jouberton Ext 22 (521 Erven) by January 2007	100% Installed sewer network Jouberton Ext 22 (521 Erven)	100%	100%
Install sewer network in Hartbeesfontein Phase I (300 Erven) by January 2007	100% Installed sewer network Hartbeesfontein Phase I (300 Erven)	100%	(xi) 70%
Establish integrated road transport plan by August 2006	Established integrated road transport plan at a cost of R3,500,000	100%	(xii) 95%
Establish regional landfill site by June 2007	Established regional landfill site at a cost of R17,520,989 (R11,000,000 - SDM + R6,520,989 - MIG)	100%	(xiii) 95%
Ensure the replacement of old water meters to eliminate water losses by June 2007	100% Replaced water meters at a cost of R 1,500,000 to eliminate water losses	R 1,500,000	R 1,500,000
Ensure the installing of a water pressure management system by June 2007	100% Installed water pressure management system at a cost of R500,000	R500,000	(xiv) R 410 000
Reseal identified streets in KOSH by March 2007	Road resealed according to maintenance programme at a cost of R3,500,00	100%	100%
Conduct interviews to ensure best candidates for vacant positions by June 2007	Compile schedules, obtain shortlist approvals and interviews held for filling of vacant posts and appointments made within 60 days	100%	(xv) 47,5%
Ensure proper communication with Council and community by June 2007	Letters, reports, agendas and minutes dispatched by the department attended to within 30 days, pending investigations and inspections to be executed, consultations or workshops	100%	(xvi)
Ensure effective maintenance of Council assets by June 2007	Improved response time attending to less urgent complaints (2 days)	100%	100%
Ensure effective maintenance of Council assets by June 2007	Improved response time attending to urgent complaints (2 weeks)	100%	100%
Ensure effective maintenance of Council assets by June 2007	Improved response time attending to urgent complaints (2 weeks)	100%	100%

Ensure maintenance of main sewers by June 2007	Sewer blockages cleaned on main sewers within 7 days of complaint received	100%	100%
Ensure installation of sewer connections by June 2007	Sewer connections application received handled within 7 days	100%	(xvii) 80%
Ensure pump stations are properly maintained by June 2007	19 Sewer pump stations maintained through a fixed programme	19	(xviii) 4
Ensure sewage is purified in Klerksdorp according to prescribed standards by June 2007	Quality of final effluent 95% within legislation requirement by weekly tests	100%	(xix) 35%
Ensure sewage is purified in Orkney according to prescribed standards by June 2007	Quality of final effluent 95% within legislation requirement by weekly tests	100%	75%
Ensure sewage is purified in Stilfontein according to prescribed standards by June 2007	Quality of final effluent 95% within legislation requirement by weekly tests	100%	100%
Ensure sewage is purified in Hartbeesfontein according to prescribed standards by June 2007	Quality of final effluent 95% within legislation requirement by weekly tests	100%	100%
Ensure the maintenance of main sewer according to programme by June 2007	5 Km of main sewers cleaned according to programme	5	11,3km
Ensure up keeping of valuation cards by June 2007	100% Valuation cards up kept	100%	100%
Ensure fast track approval of received building plans in terms of NBR by June 2007	Approved building plans within 1 month of submission	100%	(xxi) 85%
Ensure compliance with NBR by carrying out inspections	Request for inspections responded to within 2 days	100%	(xxii) 90%
Carry out inspections to eliminate storm water intrusion in private erven by June 2007	Inspections conducted for storm water intrusion on private sewers	100%	100%
Ensure fast track approval of applications for outdoor advertising by June 2007	Approved applications for outdoor advertising within 7 days of submission	100%	100%
Ensure fast track processing of applications for subdivision and consolidation by June 2007	Subdivision and consolidation applications processed within 2 weeks of submission	100%	100%

Ensure fast track processing of applications for special consent, building line relaxation and second dwellings by June 2007	Applications for special consent, building line relaxation and second dwellings processed within 2 weeks	100%	100%
Ensure fast track processing of applications for amendment schemes and township applications by June 2007	Applications processed within 1 month after expiry of closing date	100%	100%
Maintain burst water pipelines without delay by June 2007	Burst water mains repaired within 5 hours	100%	100%
Maintain water supply assets by June 2007	Break stops repaired in pump stations within 24 hours	100%	100%
Maintain water supply assets by June 2007	Scheduled maintenance on pump stations conducted	864	789
Maintain water supply assets by June 2007	37 Reservoirs cleaned annually	37	37
Maintain water supply assets by June 2007	35 Control valves serviced annually	35	35
Maintain water supply assets by June 2007	Cathodic protection tested on pipelines every 3 months	100%	100%
Ensure the attending of water related complaints / enquiries other than burst mains by June 2007	Other water supply complaints/enquiries attended to within 2 days	100%	(xxiii) 80%
Install new water connections on request by June 2007	New water connections provided within 10 working days	100%	100%
Test water connections on requested by June 2007	Water meters tested within 10 working days	100%	100%
Schedule water meter replacements by June 2007	Water meters replaced as per schedule	2 520 meters	(xxiv) 1 330 meters
Ensure healthy drinking water by June 2007	Water samples to comply within 95% legislation	100%	100%
Ensure maintenance of tar roads by June 2007	860 Km tar roads swept	860	(xxv) 767
Ensure treatment of weeds on road cutters by June 2007	120 Km tarred roads treated for weed growing	120	210
Ensure maintenance of street signs by June 2007	600 Street signs maintained	600	756
Ensure maintenance of road surfaces by June 2007	Repair potholes within 2 days	100%	100%

Ensure maintenance of storm water channel by June 2007	2 000m Storm water channel cleaned	2 000	6 500
Ensure maintenance of railway siding servitudes by June 2007	15 Km railway siding servitudes cleaned and maintained	15	15
Ensure maintenance of gravel roads by June 2007	120 Km gravel roads graded	120	120

REASONS AND CORRECTIVE ACTION

ELECTRICAL ENGINEERING SERVICES

VISION

To be an effective and efficient electricity distributor for the people of the City of Matlosana.

MISSION

To ensure a basic level of electricity supply and to provide an electrical service in an effective and efficient manner.

OPERATING STRUCTURE

- Administration and Support
- · Electrical Distribution, Planning, Testing, and Street lighting
- Occupational Health and Safety
- Fleet Maintenance
- · Mechanical Workshop

SERVICE DELIVERY

ADMINISTRATION AND SUPPORT

Overview

The administration and support function is responsible for effective administration of the department and also acts as complaint centre for the department, regarding streetlights and other electrical issues.

Description of the activity

- Typing of correspondence
- · Filing and safe keeping of all records
- Assisting with general electrical enquiries
- · Dealing and directing electrical complaints

Strategic objectives

- Ensure effective and sufficient administration function
- · NER record keeping
- · Financial control of the departments budget

Key issues for 2007/2008

- Maintain proper consumer service
- Resolve electrical complaints within 30 days

Analysis of the function

ELECTRICAL DISTRIBUTION, PLANNING, TESTING, STREET LIGHTING AND OCCUPATIONAL HEALTH AND SAFETY

Overview

Electrical Distribution includes the bulk purchase and distribution of electricity and the maintenance of streetlights. It also includes the planning, scheduling and cost estimates and compiling specifications for electrical projects. Render measuring and drafting services and testing of electrical installations. Maintain safety in all Council workplaces, according to the Occupational Health and Safety Act (85 of 1993) and regulations.

Description of the activity

- Planning and Inspectorate Office: Plan maintenance projects, update electrical plans regular, handle public requests for electrical supply (new and upgrading), cost estimation, electrical inspections on premises, control over electrical contractors and prevention of power theft.
- Testing: Robot installations, electrical metering (medium and low voltage systems), and medium voltage protection, radio communication systems for all Council departments, fault finding, water pumping-station, sewer pumping-stations, lifts in Council buildings and training.
- Distribution: Administration, medium voltage distribution (11kv, 6,6kv, and 3.3kv networks), low voltage distribution networks, sewer pumping-station and plants, water pumping-stations, lifting equipment, buildings, streetlights, highmast lights and sportfield lights.
- · Safety: Maintain safety in all Council workplaces.

Bulk supply points in Matlosana area are as follows:

Region A	Municipal Uraniaville Doringkruin	40 Mva 30 Mva 40 Mva
Region B	Jouberton Hartbeesfontein	40 Mva 5 Mva
Region C	Stilfontein Orkney	20 Mva 20 Mva

Distribution areas managed by Eskom by means of a distribution license with NER are: Kanana, Khuma and Tigane.

Strategic objectives

- Maximize preventative measures in the Matlosana area
- Ensure a basic level of electricity supply and to provide an electrical service in an effective and efficient
 manner
- Provide efficient and effective distribution network
- Provide maximum efficient street lighting in all urban and business areas
- Meet legal aspects
- Execute the legal responsibilities in terms of the Occupational Health and Safety Act
- Meet safety permit conditions in terms of the Occupational Health and Safety Act
- · Execute all relevant legal responsibilities
- · Compliance with Occupational Health and Safety Act
- Risk Assessment in Council workplaces
- Lost control throughout the Council

Key issues for 2007/2008

- Project Plan developed for Kanana highmast lights
- Project Plan developed for Tigane highmast lights
- Percentage progress on the highmast lights project
- Project Plan developed for percentage progress on the electrification project
- Percentage progress on the electrification project
- Upgrading 11kv distribution network northern suburb
- 10 year electrical master plan actioned
- % Maintenance of infrastructure in terms of maintenance schedule

- The percentage of households with access to basic level electricity
- Reduction in reticulation losses for electricity
- Percentage reduction in power interruptions: number of electricity supply minutes lost
- % Progress on the elimination of service backlogs
- Complete electrification of Alabama
- Upgrade Hood Street substation
- Upgrade Hartbeesfontein substation
- Replace kiosks with mini-substations
- Replace OCB Caledon South substation
- · Electrical bulk metering
- Streetlights Jouberton
- Upgrade streetlights in Stilfontein
- Replace old streetlight fittings in Orkney
- · Highmast lights Alabama Extension 3
- Entrance lights
- Highmast lights Khuma Extensions 8 & 9
- Preventative maintenance on medium voltage breakers, switchgears and transformers
- Conduct electrical inspections on new and existing electrical installations
- · Conduct health and safety inspections in all Council buildings
- Execute legal responsibilities

HOUSING SERVICES

VISION

A department able to provide efficient and efficient management and quality service delivery through an integrated and collective Housing Programme and create a new comprehensive plan of sustainable human settlements.

MISSION

To plan, implement, monitor and manage the housing delivery processes and subsidy programmes in the City of Matlosana.

OPERATING STRUCTURE

The Department disposes over four sections:

- · Subsidy Administration and Support
- · Policy and Planning
- Project Management
- · Housing Programmes

SERVICE DELIVERY

SUBSIDY ADMINISTRATION AND SUPPORT

Overview

The section is responsible for the effective and efficient administration of finances of the Housing Department.

Description of the activity

- Ensure prompt transfer of properties and distribution of title deeds
- Ensure effective subsidy administration
- Ensure comprehensive municipal housing development plan
- Ensure that proper housing asset management is done within the municipality
- Ensure proper administration of personnel and provision of resources
- Compile the annual budget for the Department and monthly control over the budget
- Ensure effective and efficient financial management and administration of the subsidized projects
- Link the Municipality on the National Housing Database, Housing subsidy system and other National Programmes
- · Link the Municipality with the Registrar of Deeds as well as the population registers

Strategic objectives

- Subsidy Administration and financial management of the Municipal housing funds and expenditures
- Financial and budget administration
- Asset management
- · Debt collection

Key issues for 2007/2008

- % Registration of properties through the discount benefit scheme
- % Successful implementation of all housing subsidies allocated to the Matlosana City Council

HOUSING POLICY AND PLANNING

Overview

The purpose of the section is to assist in housing developments and community needs determination. It further evaluates building contractors and gives procurement assistance.

Description of the activity

- Ensuring the frequent review of the Municipal Housing Policy and ensuring compliance with it's intent
- Develop a strategic and policy framework for future allocation of residential erven and abandoned subsidized houses
- Provide secretarial duties to the Housing, Land and Town Planning Committee.
- Develop a dispute resolution strategy for the change of tenant ownership and for registered property owners in dispute
- Ensure that Municipal Housing development plan co-inside with the IDP of Council

Strategic objectives

- Control fraud and corruption on current housing projects
- Ensure implementation of housing policies intent
- Improve mechanisms and processes for the completion of housing projects
- Management of waiting list

Key issues for 2007/2008

- Manage the housing policy framework and legislation, formulation and monitoring of implementation of housing policies and strategies
- Eliminate squatting and demolition of shacks
- Housing accreditation plan developed for accreditation with the department of housing
- Audit functional and legislative readiness for compliance to be able to accredit housing function with the department of local government and housing

HOUSING PROGRAMMES

Overview

The purpose of section is to administer hostel redevelopment, social and rental housing, as well as the administration of waiting lists.

Description of the activity

- Ensure transfer of previous state owned immovable property in line with the Housing Act, to their rightful owners
- Ensure social integration within hostel community and the adjacent communities
- Ensure promotion of Social Housing as a form of housing provision
- Ensure sustainability of the rental housing enquiry office
- Promote and ensure implementation of the "People's Housing Process"

Strategic objectives

- · Ensure capacity building programmes for personnel
- Community capacity building programme
- Social housing development plan
- · Ensure implementation of housing policies intent
- Improve mechanisms and processes for the completion of housing projects
- Redevelopment of the hostels
- Informal settlement control

Key issues for 2007/2008

- Implement awareness and educational programmes
- Hostel development programme developed for the department
- % new access to housing in terms of households
- % Implementation of the rural housing programme within the Municipal jurisdiction

PROJECT MANAGEMENT

Overview

The Project Management section is responsible for Council's larger housing projects. It administrate social compact and contracts, implement strategic projects, and the drafting of legal documentation.

Description of the activity

- · Establishment of consultative forums
- Ensure contractual arrangements
- Prepare and implement the implementation programme and cash flow
- Ensure monitoring of milestones achievement of contractors
- Manage project activities
- Manage land distribution for development purposes
- · Identification of land for future housing development

Strategic objectives

- Monitor current housing projects
- Mitigate higher housing demands created by high influx of people into the community
- · Resolve backlogs in RDP housing
- Ensure proper tender specifications
- Improve mechanisms and processes for the completion of housing projects

Key issues for 2007/2008

- · Access to diversified housing
- Percentage progress on the housing project
- Project Plan developed for housing development

DIRECTORATE Financial Services

DIRECTORATE Finance

FINANCIAL SERVICES

VISION

Implement and practice sound financial management in a prudent way to achieve a long-term financial stability for the City of Matlosana.

MISSION

Provide financial planning, accounting, financial reporting, budgeting, revenue and debt collection management, expenditure management, cash and investment management, capital projects financing, fixed assets accounting, risk management, financial information and support services to other departments and general public with courtesy, integrity and accountability.

OPERATING STRUCTURE

The department provides the following services:

- Administration and Support
- Customer Care Division
- Consumer Accounting & Debt Collection
- Financial Management
- Information Technology (Data)
- Expenditure

SERVICE DELIVERY

ADMINISTRATION AND SUPPORT

Overview

This division plans, organizes and directs the Financial Services/Treasury department. The division is responsible for financial planning and management, the implementation of Municipal Finance Management Act (as far as finances are concern) and the financial reporting guidelines.

Description of the activity

- Deal with the overall management of the department
- · Planning, organizing, managing and control
- · Responsible for strategic direction of the department
- General administrative control
- General discipline of the department
- Communication with councillors and others

Strategic objectives

- Improve working environment and relationships
- Seek opportunity to work with NGO's and provide support
- Isolate core and non-core functions.

Key issues for 2007/2008

- Ensure that internal audit reports are managed and answered within two weeks
- Revise all financial related policies
- Development of staff
- Improvement of productivity through training and changes of attitudes

- Provision of market hall, offices, shops, stores and hawker shelters
- Sales areas for four Market Agents
- Computer system to ensure administration surety and reliability
- · Cashier services for consumers
- Ensure fresh produces at all times by providing cold rooms and ripening rooms for market agents
- Card buyer system for buyers to control purchases per day
- Ensure safe environment for buyers and producers at market
- Provide carriage equipment (trolleys) to assist buyers with the transporting of their produce to the loading platforms

Strategic objectives

- Provide a safe and reliable shopping environment
- Preserve and enhance quality control
- Provide efficient operation of our buildings
- Provide a consistent and good customer service to all our clients
- Provide efficient and effective administrative support to department operations to ensure optimal service delivery
- Promote staff career development
- · Ensure that our communities are informed
- Effective & efficient financial administration

Key issues for 2007/2008

- Percentage progress on the Extension of market hall project
- Capacitate and empower emerging producers and hawkers
- Effective financial management in the department
- Marketing strategy developed for the market
- Provide fencing for market hall
- Repair floor of market
- Improve market finances by reducing outstanding debtor account to 84%

ACTUAL PERFORMANCE ACHIEVED BY THE DEPARTMENT MEASURED AGAINST THE SET TARGETS FOR 2006-2007

Key Performance Objective	Key Performance indicator	Annual Target	Target Achieved 2006/2007
Ensure the fencing in of the Market Hall by June 2007	100% Fenced Market Hall at a cost of R40,000	100%	100%
Ensure the IDP extension of the Market Hall by June 2007	100% IDP extension of the Market Hall at a cost of R1,280,900	100%	100%
Ensure the repair of the Market floor by June 2007	100% Repaired Market floor at a cost of R180,000	100%	(i) 0%
Ensure of the extension of Market Hall by providing a extended sales area by June 2007	100% Extended Market Hall at a cost of R 2 032 000	100%	(ii) 50%
Ensure the collection of R 7 245 000 market dues by June 2007	R 7 245 000 market dues collected	R7 245 000	R 8 974 306

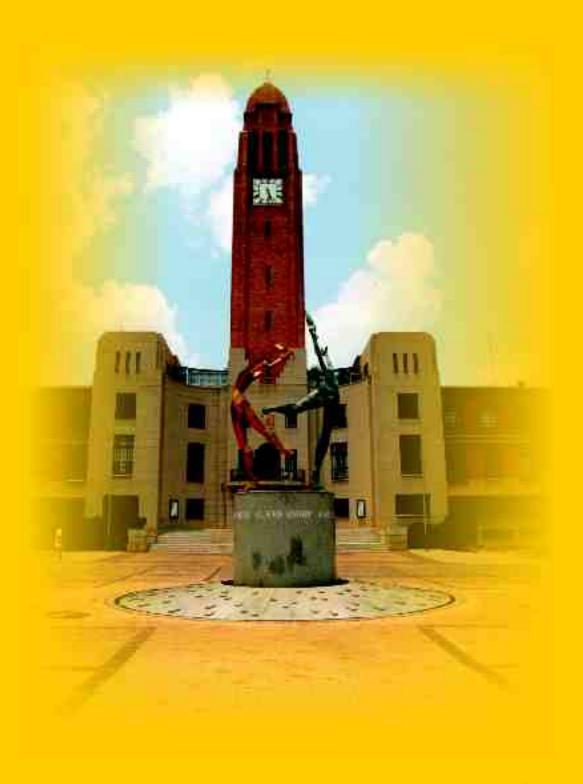

Ensure that 630 000 Sales transactions are processed by June 2007	630 00 Sales transactions processed	630 000	696 033
Ensure the collection of R 55 000 for rental transport revenue by June 2007	R 55 000 Collected for rental transport	R 55 000	R 58 334
Ensure fresh produce by the ripening of 283 500 cartons of bananas by June 2007	283 500 Cartons of bananas ripened	283 500	248 772
Ensure the collection of R 421 000 in ripening and cooling fees by June 2007	R 421 000 Ripe and cool fees collected	R 421 000	R 343 868
Improve market finances by reducing the outstanding debtor account with 84% by June 2007	Outstanding debtor account reduced to 84%	84%	(iii) 3,57%
Ensure the introduction of new producers to Market by assisting 4 emerging farmers by June 2007	4 Emerging farmers assisted	4	4
Ensure public education to create a healthier life style by arranging 8 awareness programmes on 5-A-Day by June 2007	8 Awareness programmes on 5-A-Day	8	12
Ensure a proper service to buyer by providing training to 10 hawkers by June 2007	10 Hawkers provided training	10	10
Provide a 80% clean environment to users by June 2007	80% Clean facilities provided to market users	80%	80%
Provide proper shelters to 2 hawkers by June 2007	2 Hawker shelters completed	2	2
Upgrade the Market with the completion of Phase II by June 2007	Completed Phase II of market extension	100%	100%

REASONS AND CORRECTIVE ACTION

NUMBER	REASON	CORRECTIVE ACTION
(i)	Project finalised. The project not to engineer's specifications	As soon as been rectified payment to be finalized in new financial year
(ii)	Phase II of project completed	Balance to be paid on receival of payment certificate
(iii)	Additional debtors with guarantees	Private debt collectors to be appointed

NATIONAL KEY PERFORMANCE INDICATORS

NATIONAL Key Performance Indicators

NATIONAL KEY PERFORMANCE INDICATORS

The 7 National Key Performance Indicators as prescribed in terms of section 43 of the Local Government: Municipal Systems Act, 2000 (32 of 2000), as well as in the terms of section 10 of the Local Government: Municipal Planning and Performance Management Regulations are reported on as follows:

GENERAL KEY	DDIODITV	PRIORITY 2005/06			2006/07			2007/08

Financial viability express by the following ratios:

(i) DEBT COVERAGE RATIO:

A = (783 379 634 - 129 551 883) / (50 038 806 + 44 573 257)

A = 6.9 times

(Note: 11,4 times in 2006)

A=(B-C)/D

Where:

"A" represents debt coverage

"B" represents total operating revenue received

"C" represents operating grants

"D" represents debt service payments (i.e. interest + depreciation) due

within

the financial year

(ii) OUTSTANDING SERVICE DEBTORS TO REVENUE

A= 501 250 082 / 931 958 624

A = 53.8%

(Note: 54,5% in 2006)

A=B/C

Where:

"A" represents outstanding service debtors to revenue

"B" represents total outstanding service debtors

"C" represents annual revenue actually received for services

(iii) COST COVERAGE RATIO:

A= (32,667,396 + 187 649 333) / 61 936 071

A= 3,6 Times

(Note: 2,8 Times in 2006)

A=(B+C)/D

Where:

"A" represents cost coverage

"B" represents all available cash at a particular time

"C" represents investments

"D" represents monthly fixed operating expenditure

SERVICE PROVIDERS

Service Providers

Service Providers

Currently council does not make use of any service provider/s, which renders a municipal service on behalf of Council and therefore no performance can be reported.

Although Eskom renders an installation and maintenance service to the community of Kanana, Khuma, Tigane, rural areas and farm lands which falls within the demarcated municipal area of the City of Matlosana, the agreement is between the National Electricity Regulator (NER) and Eskom, by means of a distribution license. No service level agreement is concluded with Council.

The Department Electrical Engineering is in the process of investigating service level agreements with Eskom and the Department of Minerals & Energy.

CITY OF MATLOSANA

PERFORMANCE AUDIT REPORT FOR THE YEAR ENDED 30 JUNE 2007 By: Chief Internal Auditor (GO van den Berg)

Introduction

Mandate

In accordance with the requirements of the Municipal Systems Act, the Internal Audit section performed a review of the performance management system of the Municipality for the period of January 2007 to June 2007.

Purpose, restriction of distribution and use of report

The purpose of the report is to communicate the results of the review to management.

The scope of this review/project is set out in paragraph 3. The overall objective is to provide management with independent, objective feedback regarding internal controls used to mitigate identified risks. The internal audit work and related reports should not be used for any other purposes for which it was not specifically scoped or designed, and as such, it should not be relied upon as evidence in any disciplinary proceedings involving employees, whether conducted internally or externally.

Executive Summary

Background

Integrated development planning, budgeting and performance management are powerful tools which can assist municipalities to develop an integrated perspective on the development in their areas. The performance management system monitors service delivery progress and provides focus towards priorities within an increasingly complex and diverse set of demands. It also links direct resources allocations and institutional systems to a new set of development objectives.

Chapter 6 of the Local Government: Municipal System Act, 2000 (Act No. 32 of 2000), requires local government to:

- Develop a performance management system.
 - Set targets, monitor and review performance based on the indicators linked to the Integrated Development Plan (IDP).
- Publish an annual report on performance management for the councillors, staff, the public and other spheres of government.
- Incorporate and report on a set of general indicators prescribed nationally by the Minister responsible for local government.
- Conduct internal audit on performance.
- Have the annual performance report audited by the Auditor-General.
- Involve the community in setting indicators and targets and reviewing municipal performance.

The following are the summary of issues that were noted during the review.

- The Municipality did not have a fully operational Performance Audit Committee during the 2006/2007 financial year.
- The information provided for the compilation of the quarterly performance report is not always verified for accuracy prior to incorporating in the quarterly report.
- Quarterly Reporting not in accordance with DPLG reporting guidelines.

For the detailed findings and recommendations refer to appendix A of this report.

Acknowledgement

We would like to record our appreciation for the time and co-operation management and staff provided during the course of our review.

Focus area/Scope of review

This review entails the evaluation of the effectiveness and the efficiency in respect of the performance management system.

The key areas of focus will be:

- · Obtain high-level background information.
- Use of high-level interview checklist to understand the auditee's business.

The main areas of focus will be:

- Integrated Development Plan;
- Performance Management System;
- Key Performance Indicators;
- Performance Targets;
- Actual Service Delivery;
- Internal Monitoring:
- Internal Control;
- Performance Measurement and Reporting; and
- Revision of Strategies and Objectives.
- Schedule high-level interviews with the relevant role players.

The scope of this review was limited to focusing on the key areas as identified above and did not extend to any other area.

Review objective

The objective of a Compliance Review is to evaluate to what extent by-laws, policies and procedures, statutory requirements, management and Council decisions have been complied with. Statutory requirements will include adherence to the Municipal Systems Act, Municipal Planning and Performance Management Regulations, 2001, and other relevant legislation. The project deliverables are:

- Reporting on the compliance to and effectiveness of the controls reviewed.
- Indicate areas for improvement.

The scope of this review/project is set out below. The overall objective is to provide management with independent, objective feedback regarding internal controls used to mitigate identified risks. The key risks associated with this review and used in developing the scope were:

Insufficient resources to achieve objectives

Specific risks:

- The seven national general key performance indicators in terms of section 43 of the Municipal Systems Act may not be included in the Integrated Development Plan (IDP) and/or the Performance Management System (PMS).
- The Performance Management System may not be devised in such a way that it serves as an early warning indicator of under-performance.
- The Performance Management System may not be in line with the priorities, objectives, indicators and targets contained in its Integrated Development Plan (IDP)
- Performance targets may not be set with regard to each of the Key Performance Indicators included in the Integrated Development Plan (IDP)
- Performance targets may not be specific, measurable, attainable, realistic and time related.
- Developmental needs may not be timeously addressed and rectified.
- The annual performance report may not comply with all the requirements set out in section 46 of the Municipal Systems Act.
- The municipality may not annually review its strategies and objectives as contained in the Integrated Development Plan (IDP) in accordance with an assessment of its performance measurements.

Management's responsibilities

Management is responsible for the establishment and maintenance of an effective system of governance to:

- Establish and communicate organisational goals and values;
- · Monitor the accomplishment of goals; and
- Ensure accountability and values are preserved.

Management is further responsible for the establishment and maintenance of an effective system of internal control. The objectives of the system of internal control are, inter alia, to provide management with reasonable, but not absolute, assurance that:

- · Risks are properly managed;
- Assets are safeguarded;
- Financial and operational information are reliable;
- Operations are effective and efficient; and
- Laws, regulations and contracts are complied with.

The principal safeguard against fraud, misstatement and irregularities is an effective system of internal control. It must, however, be recognised that there are inherent limitations in any system of internal control - including human error and circumventions through collusion. The prevention and detection of fraud is therefore management's responsibility.

Management representations made considered to form part of our audit evidence. Any management representations accepted on face value and in good faith, with only limited evaluation to assess for reasonableness.

A Findings and Recommendations on Third and Fourth Quarter Performance Management System Report

A.1 Non existence of a Performance Audit Committee

Finding

It was noted that the Municipality's Performance Audit Committee was not in operation during financial year and therefore no review and approval of the quarterly performance management internal audit reports occurred. The Audit Committee of the City Council was given the mandate to perform the functions of the Performance Audit Committee. However the Chairperson, Mr. X Mazabane, resigned from the Committee in August 2006, and Committee member Mrs. Viljoen, resigned shortly there after. Therefore the Municipality did not complying with Section 14(2) (a-f) of the Municipal Planning and Performance Management Regulations, 2001, that states the following:

- (a) "A municipality must annually appoint and budget for a performance audit committee consisting of at least three members, the majority of which may not be involved in the municipality as councillor or as an employee.
- (b) A performance audit committee appointed in terms of paragraph (a) must include at least one person who has the expertise in performance management.
- (c) A municipality may utilise any audit committee established in terms of other applicable legislation as the performance audit committee envisaged in paragraph (a), in which case the provisions of this sub regulation, read with the necessary changes, apply to such an audit committee.
- (d) The council of a municipality must designate a member of the performance audit committee who is not a councillor or an employee of the municipality as chairperson of the committee.
- (e) If the Chairperson of the performance audit committee is absent from a specific meeting of the committee, the member present must elect a chairperson from the members present to act as Chairperson for that meeting.
- (f) In the event of a vacancy occurring amongst the members of the performance audit committee, the municipality concerned must fill that vacancy for the unexpired portion of the vacating member's term of appointment.

Impact

The above indicates non-compliance to Section 14(2) (a-g) Municipal Planning and Performance Management Regulation, 2001. Lack of a performance audit committee could be perceived as an indication that management does not recognise the significance of the performance management system.

Recommendation

In order to enhance the level of compliance to the Municipal Planning and Performance Management Regulation, 2001, a performance audit committee should be established in accordance with section 14(2) stipulations.

The committee should furthermore meet the following requirements:

- Meet at least twice during the financial year of the Municipality;
- Review the quarterly reports submitted to it in terms of sub regulation (1)(c)(ii);
- Review the municipality's performance management system and make recommendations in this regard to the council of the municipality; and
- In reviewing the performance management system the performance audit committee must, focus on the economy, efficiency, effectiveness and impact in so far as the key performance indicators and performance targets set by the municipality are concerned.

Internal Auditors Comments

The Municipality have correctly budgeted for a Performance Audit Committee for the current financial year and for the 2007/2008 financial year.

An advert was placed during August 2006 for additional membership for Council's Audit Committee. Three applications were received, and interviews were held. Yet to date, no appointments have been made.

A.2 Information provided for the compilation of quarterly performance report not always verified

Finding

During our review, we noted that information supplied to prepare the quarterly performance report, such as actual performance against the annual targets as set out at the beginning of the financial year, is incorporated in the quarterly report as is (i.e. the accuracy thereof is not verified).

As per the Municipalities approved Performance Management Framework, the responsibility to monitor the progress of performance plans is that of Line Managers.

Internal Audit's responsibility is to assess the functionality and legal compliance of the Performance Management System, and to audit on a sample basis the performance targets achieved and reported on each quarter.

We selected a sample of KPI's in the quarterly reports to verify whether the information in the quarterly reports is the same as the information maintained by the departments. The following were however noted:

- KPI "19 Sewer pump stations maintained through a fixed programme." This KPI was reported as having achieved 20% completion, reason being that no programme was developed and implemented by the Manager: Electrical Engineering. It is not clear as to how the measurement of 20% was determined, as no documented proof could be provided during the review to substantiate the assertion.
- KPI (Office of the Speaker) "330 Ward Committee and Mass meetings held." The achieved target reported on at the end of the third quarter was 74 meetings. However on the report submitted for the final quarter, the achievement documented states 90 meetings had been held during the third quarter.
- KPI (Corporate Services) "100% reported EAP cases treated." The achieved target reported on at the end of the third quarter was 50%. However on the report submitted for the final quarter, the achievement documented states 25% was achieved during the third quarter. No explanation could be obtained from HR as to how they had arrived at the above mentioned %'s, and therefore neither of these two %'s could be verified. Reasons for the deviation, as stated by HR, may lead to the conclusion that this KPI is both unrealistic and unattainable.

- KPI (Corporate Services) "Appointed recruitment officer." The achieved target reported on at the end of the third quarter was 45%. However on the report submitted for the final quarter, the achievement documented states 25% was achieved during the third quarter. No explanation could be obtained from HR as to how they had arrived at the above mentioned %'s, and therefore neither of these two %'s could be verified. Furthermore it was brought to our attention that no such position exists on the approved organogram for Human Resources, and therefore this KPI is viewed as being both unrealistic and unattainable.
- KPI (Corporate Services) "Revised employment Equity Plan for 2006/2007." No achieved target was stated in the reported at the end of the third quarter. However on the report submitted for the final quarter, the achievement documented for the third quarter states that 25% was achieved.
- KPI (Corporate Services) "Approved Skills development Plan." No achieved target was stated in the reported at the end of the third quarter. However on the report submitted for the final quarter, the achievement documented for the third quarter states that 25% was achieved.
- KPI (Corporate Services) "Agenda's distributed 3 days before a meeting." The achievements reported on for the third and fourth quarter state that this target was achieved with 100% success. However upon review of the Acknowledgment of receipt form that is signed by each Committee member, the following was noted:
 - a. More often than not, no date of receipt is recorded on the form, therefore it is not possible to substantiate the claim that the agenda's are distributed 3 days before a meeting based on the information kept at Corporate Services.
 - b. Cases were found where the date of receipt of the agenda by the Committee members was not 3 days prior to the date of the meeting, but more often than not are 1 -2 days prior to a meeting.

Impact

The quarterly reports may be inaccurate, and may result in managements' integrity being questioned by the users of the Municipality's Performance reports.

Performance targets may not be specific, measurable, attainable, realistic and time related.

Recommendation

In order to ensure the accuracy of the quarterly performance reports, the management team of the Municipality should:

- Verify and validate the accuracy of information provided by their departments prior to the submission of the information to the PMS unit, for the incorporation in the quarterly reports.
- Therefore management will ensure that actual performance as reported in the quarterly reports is a true reflection of Municipality's performance.

Internal Auditors Comments

The current staff establishment of the PMS unit is 2 staff members, and it is their responsibility to incorporate all documentation submitted by the Directors, into the quarterly performance reports.

The management team is responsible for the verification of the actual performance achievements stated in the quarterly reports.

Therefore it is recommended that the various managers submit a Management Representation letter, along with their department's quarterly achievements, to their Directors, which clearly states that the actual performance achievements reported have been verified as being 100% accurate.

A.3 Quarterly Reporting not in accordance with DPLG reporting guidelines

Finding

Whilst reviewing the quarterly reports for Housing Services we noted the following:

- Of the 24 KPI's set for this section, only 1 KPI was achieved.
- Though the report does indicate reasons for non-achievement of set performance targets, management have not taken corrective actions to address these shortcomings.
- There is no indication of suggested corrective action, especially regarding non-achievement of set performance targets (i.e. poor performance).

Impact

The above could result in the quarterly report not serving its purpose of indicating the quarterly performance of the Municipality. The Performance Management System is not being implemented correctly by the Municipality as measures are not taken to address under -performance.

Performance targets may also not be specific, measurable, attainable, realistic and time related. Recommendation

In order to enhance the effectiveness of the report, management should ensure the following:

- The report should provide detailed reasons or motivation for non-achievement of set performance targets (i.e. poor performance).
- Management should submit a detailed corrective action plan that is to be implemented, so as to address the non-achievement of set performance targets (i.e. poor performance) to their relevant Directors.
- These actions plans should be monitored by the Directors on a monthly basis to ensure correct implementation of the plan, and ensure overall achievement of the performance targets by the section.
- Management should also ensure that the quarterly reports are completed and submitted timely to the relevant authorities.

Internal Auditors Comments

The detailed management action plans, setting out the responsible officials and due dates, need to be provided and implemented for each KPI where under-performance has been identified, and submitted along with the quarterly performance reports to the PMS unit.
